Annual Fund Gift Form

Every September, new students arrive here with the dream of gaining a degree followed by a career in their chosen path. But the cost of living and studying in London proves to be too costly for many of our students. For these students, their time is consumed with worrying about how they will afford to pay rent, tube fares and course materials such as textbooks and equipment. Their education can begin to suffer and some even consider dropping out of their course and giving up on their ambitions.

You can help these students and ensure they don’t abandon their studies because of financial hardship. A gift from you could help those in need and change their futures for the better.

Please help students by making a gift today

Umamah, a bright third-year medical student, grew up in a range of neighbourhoods – having relocated homes several times during her secondary school days. Despite the uncertainty her family faced, Umamah was raised by a loving and supportive family but learned, very early on, what it was to have to support her own parents. She helped her mother care for her epileptic father and it was this that fuelled her passion to study medicine and help others who are suffering. She has faced financial issues, like many other students, but unlike many of her friends she could not ask her parents for support. Do you remember being in a similar position or did you have friends who had no one to go to when things got tough? Umamah turned to her University, and thanks to support from generous alumni like you, she received a bursary that helped her find her feet.

Umamah, Medical Student, 3rd year

‘I’m incredibly grateful for the hardship bursary and I’m so thankful to people like you who have contributed towards my happiness, health and potential success. Your support has helped me go beyond the boundaries that have been holding me back – and it’ll help me develop into the person I strive to be. You’ve inspired me through your acts of kindness. I wish one day to give back as you have done, and help those who are as disadvantaged as I was. Thank you!’
