I am delighted to welcome you to the Queen Mary University of London Open Day. This is our chance to show you what life is like as a member of the Queen Mary community.

Queen Mary is one of the UK’s leading global universities, highly rated for its teaching and learning, research and innovation, and wide-ranging public engagement. We are a Russell Group university, situated in the heart of the East End of London, with a history dating back to 1785 and with staff and students representing more than 160 nationalities. We have a strong reputation for disciplinary and multi-disciplinary excellence in the areas of medicine, science, engineering, humanities, social sciences and creative industries, attracting world-leading staff, high-quality students and generating extensive relationships with local, national and international leading organisations.

During the Open Day you will have the opportunity to explore our campus, to view our superb Student Village and to see some of the excellent teaching facilities, which have been the focus for considerable investment in recent years. You will also get a feel for the social life and extra-curricular activities on offer at Queen Mary and meet representatives from our lively and engaged Students’ Union.

You will have the chance to talk to our professional services staff who do so much to support students during their time with us. You will also have the opportunity to talk to our academics, whose dedication to their teaching is so much appreciated by our students, and whose research enables us to create opportunities for the next generation, tackle global challenges, contribute to cultural development and create social and economic benefits, in an ever-changing national and international environment.

Finally, and perhaps most importantly, you will be able to speak to Queen Mary students, who enjoy one of the best student experiences in London (ranked top in London for nine subjects, National Student Survey 2017), and find out all you need to know about studying at one of central London’s largest campus universities. So please, relax, explore and make yourself at home; but most of all enjoy your day with us.

Professor Colin Bailey
President and Principal

“Open Day at QMUL was a great experience, not just for me, but also for my family”
About our Open Day

We know that when you first arrive at an Open Day, it can be quite overwhelming. There are people everywhere, timetables, maps, and signs pointing in all directions. It’s a lot to take in!

As a starting point, please read this page which tells you a bit more about the Open Day in general. The rest of the programme gives you all the information you need to plan your day: what’s happening where and when.

If you need help at any point during the day, please have a chat with one of our Student Ambassadors or staff members who will be happy to assist you.

Opening hours
The Open Day is open from 9.45am to 4pm. All talks are offered on a first-come, first-served basis. You are welcome to attend any talks and activities in any subject area, not just the ones you indicated at the time of booking. Once you have checked in you are free to come and go from the Open Day as it suits you.

Information Point
Staff and Student Ambassadors are stationed throughout the campus if you require any information, advice or guidance. Look out for our purple and blue t-shirts!

An information point is also open all day in Library Square for any questions you have.

General information
Smoking is only permitted in the signed designated areas on the Mile End campus.

If a fire alarm sounds, please follow the instructions from staff and Student Ambassadors in order to leave the building safely.

There are toilets in most buildings and extra portable toilets around the campus. Please ask staff for directions and alert them if you require first aid.

Campus map
To make it easier for you to find where you need to go, the campus map, talk timetables and welcome areas are colour coded.

For instance, if a talk is coloured yellow, that’s the ArtsOne Building, so just find the yellow building on the map and make your way there through the campus.

Free tea and coffee
Free tea and coffee can be enjoyed in the Octagon all day.

Food Festival
Food can be bought from the World Food Festival located by the canal, and Graduate Centre Square where you will find a selection of treats from around the world.

HUB
The Students’ Union Hub is home to the Union’s activities, reception, social space and prayer room in the Multi-Faith Centre.

</tbody>
</table>
In addition to the subject talks offered at the Open Day which give you an insight into what the course is about, our academic schools also offer a range of interesting taster lectures. These lectures address specific topics and will give you a flavour of what teaching is like here at Queen Mary and a sense of what lectures are like too. Our world-class academics hope to give you an insight into their topic and inspire you to go further. These are offered on a first come first serve basis so no bookings will be taken in advance.

**Chemistry is kool**
Come and explore the wonders of chemistry – a central science that underpins many other science-based subjects including medicine and dentistry. This fun, interactive lecture will demonstrate the use of liquid nitrogen to condense oxygen from the atmosphere and use solid carbon dioxide to generate ‘stage smoke’ and coloured solutions of your favourite football teams.

**Time:** 12.15–12.45  
**Location:** Skeel Lecture Theatre

**When birthdays attack: first-year maths and beyond...**
Rosemary Harris is a Reader in Applied Mathematics. She teaches first-year calculus while her research interests relate to applications of probability in theoretical physics. In this lecture, she will cover you with some counter-intuitive everyday probability whilst giving a glimpse of the different topics and teaching styles you will encounter in an undergraduate mathematics degree.

**Time:** 12.15–12.45  
**Location:** Peston Lecture Theatre

**Trusts of the family home**
How the law of equity has adapted to social changes in the living arrangements of cohabiting couples (who are not in a relationship recognised by law), through recent decisions in the Chancery Court. Fancy a firefighter? What a difference a few words make!

**Time:** 12.15–12.45  
**Location:** Laws Building 2.10

**Anatomy, war and medicine: facial reconstruction and the treatment of burns**
“For the medical profession at least, war has been a very efficient ‘schoolmaster’” – Merrite W Ireland, Surgeon General United States Army from 1918–1931. Covering material from his first-year module ‘Human anatomy’, Dr Steven Le Comber will discuss the structure and function of the integumentary system, and how these relate to advances in facial reconstruction and burn treatments during both World Wars.

**Time:** 13.00–13.30  
**Location:** People’s Palace Lecture Theatre 1

**What does Trump stand for?**
With less than one year in the Oval Office, Donald Trump continues to make global headlines but what are the key features of his administration? This session will discuss the influences, policies and problems that are expected shape the US and the world in the next four years.

**Time:** 13.00-13.30  
**Location:** Mason Lecture Theatre

**Plastics that harvest energy: a role for materials scientists**
Scientists and engineers at QMUL are actively involved in developing plastic materials that are electrically conductive. These materials have a wide range of applications in flexible electronic devices and medical implants, as well as for converting waste heat into useful electrical energy. This talk will introduce the research field and discuss how materials science is key to realising exciting applications.

**Time:** 13.45–14.15  
**Location:** People’s Palace Lecture Theatre 1

**What is actuarial science?**
Jim Webber is a Lecturer in Actuarial Science and a qualified actuary with extensive industry experience. In this taster lecture he will provide an overview of the actuarial industry and career opportunities in this field, as well as introducing our Mathematics with Actuarial Science BSc degree programme.

**Time:** 14.30–15.00  
**Location:** Peston Lecture Theatre

**Co-ownership of land**
What happens when you buy a flat with a friend? Who is on the legal title and does it make any difference who contributed more or less? More to the point, if you want to sell your share of the flat, can you do that? And what is the advantage (or disadvantage) of death?

**Time:** 15.15–15.45  
**Location:** Laws Building 2.10

**Are CEOs paid too much?**
Barclays CEO is expected to be paid £8.4 million a year. Why is he or, more generally, some CEOs paid such large amounts of money? Should the government intervene and regulate how much CEOs are paid? Come to this talk if you would like to know the answers.

**Time:** 15.15–15.45  
**Location:** Peston Lecture Theatre
English and drama tasters

These taster sessions give you the chance to expand your mind in the fields of literature, theatre, creative writing, performance, culture and society. For more information about these sessions, please speak to staff from the School of English and Drama in the Arts Two Building welcome area. Places are limited but you can book your place in advance by emailing: sed-web@qmul.ac.uk or book on the day at the School of English and Drama welcome area.

### English

<tbody>
<tr>
<td>10.15–11.15</td>
<td><strong>Taster lecture: Time in Virginia Woolf’s Mrs Dalloway</strong>&lt;br&gt;How do novels imagine time? Focusing on excerpts from Virginia Woolf’s <em>Mrs Dalloway</em>, we’ll be exploring the many ways this text represents subjective time - thinking about how linear time is disrupted by flashbacks and flash-forwards, evoking the flux of thought.</td>
<td>Arts Two Building, 2.17</td>
</tr>
<tr>
<td>13.15–14.15</td>
<td><strong>Taster seminar: Thinking dreaming</strong>&lt;br&gt;This workshop explores Sigmund Freud’s approach to interpreting dreams. How did Freud’s approach differ from that of previous dream analysts? Why has his theory been so influential for teachers and students of literature? This seminar will cover extracts from Freud’s The Interpretation of Dreams and will look at examples of dreams from film and literature.</td>
<td>Arts Two Building, 2.17</td>
</tr>
<tr>
<td>10.15–11.15</td>
<td><strong>Taster seminar: Romeo and Juliet’s first meeting</strong>&lt;br&gt;This workshop will combine a close-reading of the scene in which Romeo and Juliet first meet with a viewing of two filmed versions: the most recent production at Shakespeare’s Globe, and Baz Luhrmann’s 1996 update set in Las Vegas.</td>
<td>Arts Two Building, 3.16</td>
</tr>
<tr>
<td>13.15–14.15</td>
<td><strong>Taster lecture: Stalking with the Victorians</strong>&lt;br&gt;In this workshop we will explore the figure of the stalker in the 19th century. We will discuss a range of representations of stalking, professional and amateur, benevolent and malign, and think about how they relate to the social construction of gender, class and race in this period.</td>
<td>Arts Two Building, 3.16</td>
</tr>
<tr>
<td>10.15–11.15</td>
<td><strong>Taster seminar: Creative writing workshop: Experimenting with voice</strong>&lt;br&gt;This workshop will offer participants a chance to try out different ways of exploring voice as they begin to develop their writing.</td>
<td>Arts Two Building, 3.20</td>
</tr>
<tr>
<td>13.15–14.15</td>
<td><strong>Taster seminar: Reading Caribbean London: Sam Selvon’s <em>The Lonely Londoners</em> (1956)</strong>&lt;br&gt;In this seminar we will discuss how the work of West Indian writers in London in the 1950s explored and redefined the relationship between Britain and the Caribbean in the era of decolonization focusing on an extract from Sam Selvon’s novel <em>The Lonely Londoners</em>, we’ll consider how Selvon’s experiments with voice and imagery craft a distinctively new vision of the migrant city.</td>
<td>Arts Two Building, 3.20</td>
</tr>
</tbody>
</table>

### Drama

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>10.15–11.15</td>
<td><strong>Seminar: What is performance art?</strong>&lt;br&gt;In Performance Art, an artist often uses her or his body as raw material and abandons the traditional tendencies towards acting, characterisation, and narrative that typify performances in the theatre. We’ll explore some of the key experiments that Performance Art has included in the twentieth century.</td>
<td>Arts One Building – Pinter Studio</td>
</tr>
<tr>
<td>13.15–14.15</td>
<td><strong>Practical workshop: Theatre in the dark</strong>&lt;br&gt;The last twenty years have seen an increasing number of theatre makers experiment with the creative potential of darkness. What kind of worlds can be conjured through live and recorded sound designs? What are the implications for performers of working in darkened theatre spaces? This workshop will use practical experiments to address these and related questions.</td>
<td>Arts One Building – Pinter Studio</td>
</tr>
<tr>
<td>10.15–11.15</td>
<td><strong>Seminar: Political theatrics</strong>&lt;br&gt;Politics and theatre can go together in many ways, from politically engaged plays to the theatrics of election campaigns. In this session we will consider how theatre intervenes in two key political issues of the contemporary moment, including the refugee crisis and the presidency of Donald Trump.</td>
<td>Arts Two Building – Film and Drama Studio (FADS)</td>
</tr>
<tr>
<td>13.15–14.15</td>
<td><strong>Practical workshop</strong>&lt;br&gt;A practical workshop exploring techniques such as performance choreography, image making, and the composition of bodies in space. Come ready for practical work.</td>

Our academic Schools teach a range of subject areas related to their core disciplines. We also encourage cross collaboration between our Schools to teach joint and related programmes. This means you may wish to visit more than one welcome area to hear about your chosen subject. We have put together a list of subject areas along with all the academic Schools involved with programmes that include them.

Queen Mary offers a network of support services to ensure that you get the most out of your experience as a student here.

The Student Experience Fair will be open all day in the Octagon, so you can chat with staff from these services.

- **Admissions**
  Our Admissions team can offer advice about the admissions process and selection criteria and are happy to discuss your application with you.

- **Advice and Counselling Service**
  Advice and Counselling offers a range of free and confidential services to help students in a variety of situations – from the practical and legal to personal issues including student finance.

- **Careers and Enterprise Centre**
  From finding a part-time job while studying, to securing your dream job after graduation, the Careers Service supports our students with all aspects of careers information and guidance.

- **Disability and Dyslexia Service**
  The Disability and Dyslexia Service offers support for all students with disabilities, specific learning difficulties and mental health issues.

- **Global Opportunities**
  Our international exchange and Erasmus programmes offer a wide range of opportunities to study with our partners for a semester, a full year or a short summer programme.

- **Learn a language**
  Queen Mary offers the opportunity for its students to learn another language, these include: Arabic, French, German, Japanese, Mandarin, Spanish.

- **Students’ Union**
  Queen Mary Students’ Union provides a number of student-run activities, like sports clubs, societies, student media and volunteering.

- **Scholarships and bursaries**
  Discover the financial support we offer at QMUL to help you with your studies.
Tours and other activities

General Campus Tours
General Campus Tours will be running all day from the Octagon. One of our Student Ambassadors will show you around and answer any questions you may have about life as a student at Queen Mary. Please note that the General Campus Tour does not include our accommodation, which can be seen on the Halls of Residence Tour.

The General Campus Tour lasts 30–45 minutes and there may be a short wait for a tour at peak times.

Self-Guided Tour
If you would rather explore the campus independently, pop in to the General Campus Tours area in the Octagon, where you can pick up a Self-Guided Tour leaflet to help you find your way around.

Halls of Residence Tour
Halls of Residence Tours will be running all day from the Student Village and are an opportunity to look around the place you might be calling home in a year’s time. Tours will take approximately 20 minutes and staff will be on hand to answer any questions you may have.

Drapers’ Bar
Provides a relaxed and easy-going environment for students to take a break from work and socialise with friends.

Qmotion Sports and Fitness Centre
Qmotion is the sport and fitness centre for Queen Mary students. The facilities have been designed to accommodate a range of activities from group exercise classes through to performance training with qualified personal trainers.

Academic School Tours
Some academic Schools will be offering tours of their facilities throughout the day. Please ask in the relevant welcome area if a tour is being offered for your subject of interest.

Library
The Library will be open all day, with staff available to show you around the study space and subject collections, answering any questions you might have.

Get Active
Get Active is the Students’ Union’s fun, convenient and affordable sports programme. More than 40 sessions take place each week in a wide variety of different sports. Students are able to ‘turn up and play’ and also take part in organised leagues and tournaments.

Get Active will be running drop-in taster activities and competitions (including a climbing wall!) throughout the day in Library Square.

Some student societies will be showcasing their activities and societies too.

“It was great talking to staff and students in a relaxed environment. They were very welcoming and answered all my questions”

Scholarships and bursaries

At Queen Mary University of London (QMUL) we are committed to ensuring that financial constraints do not hinder people from aspiring to attend university and we also recognise and reward excellence.

We offer a range of financial support for students studying at QMUL in the form of scholarships, bursaries and other awards. These are funded by the university, through partnerships with external organisations or through generous donations from alumni and friends of QMUL.

The value of the awards varies depending on the scheme, and range from full scholarships to partial fee waivers.

All financial support opportunities have associated eligibility conditions such as household income or academic achievement. Some awards are competitive and require an additional application whereas others are automatically awarded based on your prior qualifications and conditions.

To find out more about the financial support we offer, please visit our scholarships and bursaries stand at the Student Experience Fair in the Octagon inside the Queens’ Building today.

You can also visit our website at: qmul.ac.uk/scholarships

Making a difference

“I can’t express how amazing it feels to receive the International Science and Engineering Excellence Award. This scholarship helped ease the financial pressures of school and allowed me to place all my focus on becoming the best student I can be. The lectures are insightful and all the faculty and staff are helpful. London is one of the best cities in the world and I am really grateful for this opportunity. Studying in the heart of UK has been a truly a mesmerising experience.”

Muhammad Sarman Nadeem, Mechanical Engineering BEng

“I am a second year undergrad at Queen Mary University of London. I am very grateful for the scholarship, it gave me a great opportunity to learn from leading experts in their fields thus making study engaging and fun. I have been able to share my own culture while learning from others. QMUL has a welcoming environment.”

Jorge Zúñiga, Electronic Engineering MEng
Making the decision about going to university involves all the family, so it’s important that everyone knows what the process involves, including parents and carers.

There are a number of ways that you can support your son or daughter to make important decisions that will have a lasting effect on their lives.

Right now there might be a number of questions on your mind like how should you choose a university? Should your son or daughter live at home and travel to university or live on campus?

What course should they study? Should they have a particular career in mind? How do they apply and what’s the UCAS process like? How much will the course and accommodation cost? What support is available to them?

Don’t worry. As a parent, you will understand that going to university is a life-changing opportunity. At Queen Mary we appreciate how daunting the prospect of letting go of your little one (well, they were little once!) can be. We can offer you useful advice and guidance to support you through your loved one’s journey to university.

We have developed a guide to help take you through the whole process of how your son or daughter can choose and apply for the right course, understand student finance and make the most of student life.

You can pick up your copy from the information stand in Library Square or ask at the registration marquee.

If you’d like to keep in touch with us and receive useful information throughout the year, you can sign up to our Parents’ Scheme by completing a postcard available from the information point in Library Square and School welcome areas.
Queen Mary University of London offers access to unparalleled state-of-the-art teaching and research facilities in London which you will see during your visit today. But we are going further, investing in all of our campuses, and during your visit to the Mile End campus you will see several buildings undergoing exceptional transformations.

Graduate Centre
We opened our new building, the Graduate Centre, in January 2017. In addition to being the home for the School of Economics and Finance, the Doctoral College and the Research Degrees Office are located in the building. The Graduate Centre also provides work areas and social spaces tailored specifically to the needs and working patterns of our postgraduates.

The £39m building offers:
- An impressive 200-seat lecture theatre and numerous seminar rooms
- 7,700 square metres of new learning and teaching space including a ‘mock trading floor’
- A new landscaped courtyard
- New trees, planting, green walls and areas of greenery
- A ground floor café, with seating inside and out

Engineering Building
A major £30 million redevelopment over the next three years to modernise and enhance the building and facilities of the Engineering Building, used by the School of Engineering and Materials Science and the School of Electronic Engineering and Computer Science, is also underway. The first phase of work has been completed including undergraduate teaching space, a human performance lab and a robotics engineering lab. Further work will include the development of a creative engineering hub and a brand new robotics engineering lab.

Mathematics Building
The School of Mathematical Sciences is investing approximately £19 million in a transformative project to create an inspiring, collaborative space for our community of students and staff.

As well as high-quality teaching space there will be a range of private and group study areas throughout the building, and a new social space to provide an informal hub. The project is expected to be completed in 2019.
In today’s competitive job market, employers expect graduates to have a range of skills and first-hand experience of the workplace. While this can seem daunting, at QMUL there’s lots of support available and many opportunities to help you develop these skills and experiences.

Our Careers and Enterprise service provides you with support in choosing a career, CV and application writing, interview techniques and how to succeed at other employer recruitment methods. We can also help you to find internships, part-time work, graduate roles and/or further study that fit with your priorities and schedule. Browse over 1400 live vacancies on our job site, and read our Jobs Blog (or follow us on Twitter) to stay up-to-date with the job market. We want our graduates to be in the strongest position possible when they leave us.

We also run 120+ employer led events on campus each year, and invite former students from your subject area to share their experiences of the workplace with you. These informal sessions enable you to find out more about particular companies or industries.

Work placement schemes
Our Careers and Enterprise service runs a wide range of innovative schemes to help you develop the transferable skills and experience that you’ll need when you graduate.

Our QCConsult programme places student teams into local businesses to delivery consultancy projects. You’ll analyse a real business scenario for a real client. This scheme is expanding and won Employability Initiative of the Year at the Guardian University Awards in 2016.

Other schemes include QEnterprise – a suite of programmes and seed funding to help you start or grow your own business; QProjects – project work in community organisations; and QTemps – a service helping you to find paid short-term and part-time work on or near to campus.

To find out more about our Careers and Enterprise services, attend the ‘Careers and Employability’ talk (please see page 4 for details).

You can also visit the Careers and Enterprise Centre in the Queens’ Building where you will meet staff and students who can answer any questions you may have and show you around the centre.

Further information can also be found at our website: careers.qmul.ac.uk
Queen Mary has been at home in the East End since 1887. Starting out as a Victorian ideal, our founders aspired to create a place where everyone would have access to the same opportunities in education, recreation and culture – regardless of background.

A striking feature of Mile End Road, the Palace was a collaborative project funded largely by the Beaumont Trust and the Drapers’ Company. It delighted the local community with a vibrant calendar of social events and facilities including swimming baths, concert halls and a sublime Winter Garden.

From industry to academia
The People’s Palace also established Technical Schools to train a new generation of tradespeople for east London; however, many students excelled at their studies and progressed into further academia, demonstrating a significant need for local opportunities in higher education.

As the success of the People’s Palace Technical Schools continued to grow, arts and humanities teaching was introduced – and this commitment to academic excellence led to the Schools’ permanent admission to the University of London in 1915 under the new name of East London College (ELC).

Becoming Queen Mary
By 1934, the College’s influence and reputation had developed beyond the capital: students came not only from across Britain, but the globe. Awarded a Royal Charter by Queen Mary of Teck, ELC took the name Queen Mary College in her honour, and began to expand its facilities, partnerships and achievements.

The latter half of the 20th century brought a merger with Westfield College, an early pioneer of women’s education, and the globally recognised medical schools of St Bartholomew’s and The (Royal) London Hospitals.

QMUL today
With more than 21,000 students, QMUL’s teaching and research stretches across three faculties: Humanities and Social Sciences, Science and Engineering, and Barts and The London School of Medicine and Dentistry. Now a leading Russell Group university, we were ranked 9th in the UK for the quality of our research (Research Excellence Framework 2014) and continue to facilitate leading studies ranging from the discovery of exoplanet Proxima b to understanding the psychology of bumblebees.

We are proud that our vibrant and diverse community of staff and students are not only renowned for their academic ability, but their demonstrable commitment to public good.

Find out more at: qmul.ac.uk/est1887
Queen Mary Students’ Union – get involved!

Who are we?
Queen Mary Students’ Union is a democratic membership organisation that is the voice of all Queen Mary students. The Union ensures that QMUL and the wider community are listening to what students want and works to improve students’ experience. The Union is led by students across Queen Mary. Every student is automatically a member of the Union and has a say in how it is run through elections and their representatives.

The Union provides a number of student-run activities, like sports clubs, societies, student media and volunteering. The Students’ Union also offers student-led events and services in Mile End and Whitechapel including a sport and fitness centre and several shops and venues.

The Hub
This is where you can find information about local and campus events, arrange to meet your Sabbatical Officers or members of staff, make appointments for advice and find out about volunteering opportunities. The Hub is located on the Mile End campus and you can come and have a look at the facilities today (number six on the campus map).

Clubs, societies and the community
The Students’ Union has more than 190 different clubs and societies, so whether you are interested in football, politics, martial arts or theatre, you should be able to find something to suit your interests. You can also develop your skills through student community action projects or volunteering opportunities.

Qmotion and other sports facilities
The Union’s state-of-the-art health and fitness centre, Qmotion, is fitted with the latest equipment. As well as the sports facilities on campus, you can also use facilities off-site. Come and visit us today and get involved with activities in Library Square.

Entertainment
A packed social calendar keeps students on their toes with regular nights and seasonal one-off events. The Drapers’ Bar in Mile End is one of the best student entertainment venues in the country. Medical and dental students can also make use of entertainment facilities at Whitechapel and Charterhouse Square.

For more information, visit us in the Student Experience Fair in the Octagon or at the Hub today.
Get Active – sport at Queen Mary

At Queen Mary, we provide a huge variety of sports and activities for complete beginners up to elite athletes. Get involved with our fun and social ‘turn up and play’ programme, or challenge yourself to compete against other universities nationwide. There are also plenty of opportunities to develop your coaching skills as a sports leader.

Get Active
Get Active is our social sport programme offering 40 sessions per week in a variety of sports from badminton to archery. All equipment is provided and no previous experience is necessary. Get Active is a great way to keep fit and make new friends so get involved and give it a go.

Sport leagues
Sport leagues offer a social environment to compete in sport without the commitment required for a sports club. Enter a team from your hall, friends, course-mates or society and take part in football, basketball, cricket, netball, tennis or squash. All leagues take place either on or near campus. The leagues are open to all abilities and fees include fixtures, officials, facilities and equipment.

Community sport
This is an award-nominated sports leadership programme that deploys students into voluntary coaching and refereeing positions within local community sport. The programme is designed to give you the best possible opportunities to develop your CV with fantastic experience, skills and qualifications to ensure you get the most out of your time at university.

Elite Athlete programme
The Elite Athlete programme enables student athletes to focus on their studies, training and competition and worry less about the financial barriers and administration that comes with performing at an elite level.

Club Sport
Whether you’re looking to continue taking part in a sport or you want to explore a new one, there are plenty of opportunities within club sport for you to get involved. Clubs are run by students for students.

Find out more
To find out more about sport at Queen Mary, please speak to our Students’ Union staff who will be available in Library Square, the Student Experience Fair and in the Qmotion Sport and Fitness Centre or visit qmsu.org
Student accommodation

We have one of the largest residential campuses in the capital and a dedicated Student Village at Mile End. Living on campus is fun, safe and convenient – you’ll only be a five-minute walk to your lectures – perfect for those 9am starts. It’s also a great, and affordable, chance to live in London.

All of our accommodation is in self-catered flats and maisonettes. We also have dedicated halls for medical and dental students situated in Dawson Hall at the Charterhouse Square campus and in Floyer House at the Whitechapel campus. As a Queen Mary student, you also have the opportunity to live in the fully catered University of London (UoL) Halls in central London, alongside students of other UoL colleges.

We can provide specialist advice on a range of alternative housing including: renting a local room or flat, a room in a privatively built hall of residence or choosing a homestay or short-stay option (which provides greater flexibility).

For more information about applying for our housing, as well as further guidance and information on prices and tours, please visit the Residences Team today at the Student Village (point two in the campus map).

You can also contact us on: Tel: +44 (0)20 7882 6474 email: residences@qmul.ac.uk, residences.qmul.ac.uk
East London: The soul of the capital

Projecting a vibrant blend of colours and landscapes, Mile End and Whitechapel are some of London’s most imaginative districts. Located in the heart of east London, they are home to a vivid mixture of cultures and people from across the world.

This global personality resonates within everything you see, from the people to the businesses and from the food through to the markets. The architecture is a mix of the quaint and the modern, striking a great balance of traditional East End character and contemporary cool across the Victorian churches, pubs, museums and the world-class sports facilities and parks.

The East End is one of the most rapidly changing parts of the capital and with so much creativity and innovation around you, it’s hard not to be inspired by everything you experience.

Mile End and Whitechapel sit at the doorstep of central London, with Canary Wharf, Stratford and Shoreditch offering an abundance of opportunities for students. With its world famous nightlife, festivals, sport, shops and access to industry, London and the East End is an inspiring place to live and study. And when you combine all this with a welcoming community, full of the famous East End spirit, east London will soon become a place that will quickly feel like home.

London landmarks:
- Queen Elizabeth Olympic Park – 1.8 miles/2.9km
- Canary Wharf – 1.9 miles/3km
- Tower of London – 2.3 miles/3.7km
- St Paul’s Cathedral – 2.8 miles/4.5km
- Tate Modern – 3 miles/4.8km
- Trafalgar Square – 4.3 miles/6.9km
- Big Ben – 4.6 miles/7.4km
- London Eye – 4.7 miles/7.5km
- Oxford Circus – 4.9 miles/7.8km
- Buckingham Palace – 5.1 miles/8.2km

On your doorstep (in walking times)
- Sainsbury’s supermarket – 30 seconds (30 yards/27m)
- Tube station (Mile End) – 5 minutes (352 yards/322m)
- Climbing wall – 7 minutes (704 yards/644m)
- Mile End Park Leisure Centre, with swimming pool, sports pitches and athletics track – 8 minutes (0.5 miles/0.8km)
- Independent cinema (Genesis) – 8 minutes (0.6 miles/0.9km)
- One of the best Punjabi restaurants in London (Tayyabs) – 18 minutes (1.2 miles/1.9km)
- One of the best contemporary art galleries in Europe (Whitechapel Gallery) – 22 minutes (1.5 miles/2.4km)
- A fresh bagel any time of the day or night (Brick Lane) – 25 minutes (1.8 miles/2.9km)
- Heated outdoor pool all year round (London Fields Lido) – 30 minutes (2 miles/3.2km)

Pick up a copy of our students’ guide to east London in Library Square
The World Food Festival is a street food festival dedicated to showcasing the very best and most creative street food traders and celebrating the amazing multiculturalism of London’s street food scene. We are pleased to be hosting these artisan caterers on our campus, allowing our visitors to experience a taste of the world.

You have a wide selection of cuisine to choose from which should satisfy even the most exotic of palates so make sure you stimulate your taste buds before you leave today!

The cuisine on offer includes European, South Asian, Far Eastern, South American and Caribbean.

The festival stalls are located across two locations on the campus. Please refer to points ‘A’ on the map or ask staff for directions.
Top 5 things to do

- Visit your academic welcome area and attend subject talks
- Tour the campus and student residences
- Visit the Student Experience Fair in the Octagon
- Check out our state-of-the-art Library
- Grab a bite from the World Food Festival

Other sites and sounds:
- Listen to the Principal’s welcome talk
- Listen to an interesting taster lecture
- Take a pic at our cool photo booth in Library Square
- Visit our Careers and Enterprise Centre
- Tour the QMotion Fitness Centre in Godward Square

We hope you have a great day with us

“Open Days at QMUL are different. Not only did I get all the information about my degree, but I also had so much fun getting it”
Thanks for attending our open day.
We hope that you found it enjoyable and informative.

Tell us what you think
Help us to improve the open day experience. We will send you an email with a link to our questionnaire if you’d like to provide your feedback. You will have the opportunity to enter a prize draw to be in for a chance to win one of six £50 Amazon vouchers.

Carry on the Conversation
Have you got more questions? Why not chat to one of our students online at qmul.ac.uk/unibuddy

Good luck!
