

## CEG Covid-19 response & support for east London

30/03/2020

Dear Colleagues, please find updates on CEG support during the crisis

### CEG Covid-19 Dashboard

Several of you have pointed out the COVID dashboard data was displaying in incorrectly. This has been corrected.

Also, the access to the GP COVID dashboard has been moved.

It is now available on the East London Health & Care Partnership website

<https://www.eastlondonhcp.nhs.uk/>

On the Right hand is **ANALYTICS TEAM** – click on that and select **COVID19**

There is a 'page' for each CCG and practice totals

<https://app.powerbi.com/view?r=eyJrIjoibTY0OTQ1N2Q1NzFiMi00NTE5LWlWZmYtODBiZmQ2NTIwMTYwIiwidCI6ImQyMjc2ODJmLWFiNWEtNDImNi04NzNhLThlZmQ1MDQ1ZjBmNCJ9>

**NOTE:** The dashboard shows trends in daily recording. Cumulative totals are also available.

This is based on GP recording of people with whom they consult who may be exposed, suspected, tested or have confirmed COVID – at this present time there is no testing by GPs and their reporting of tests is based on testing by other staff usually in hospital.

There is therefore a lot of variability depending on whether GPs receive or indeed record the test results in their records.

There is currently no direct 'lab link' of COVID results to GP electronic health records and GPs are not always informed of test results.

### Patient Identifiable Data (PID) to Identify Vulnerable Patients

CEG will request you activate PID reporting in order that we can identify vulnerable patients who can be contacted for support. Please find attached letters showing governance under Section 3 Regulation approving use of identifiable data for COVID related purposes and the CEG request for practices to activate this facility in their systems if not already enabled.

If you have any queries at please do contact us.

### CEG dedicated Covid-19 Web Pages

<https://www.qmul.ac.uk/blizard/ceg/covid/>

For all specific queries about Corona virus or Covid-19 please use our new dedicated e-mail account. Also please do refer to our web pages which contain information and resources to support you
