

# AIMS Test: Inhaler Technique

# Learning Points from the Action Plan Session

## Learning Points from Inhaler Workshop

Good to see how to use different devices

InCheck Dial device very useful for inspiratory rate

Effort required when using different devices

"I know how to use an MDI now"

Inspiratory strength for turbohaler quiet high

Awareness of different devices

Breezhaler device lasts 30days

Awareness of Asthma related death rates

Handihaler lasts 1 year

Triggers of Asthma and prevention

How to use powder device

How to prime a seretide, accuhaler,

Amount of inhalation required for different devices

Dates of expiry for tiotropium

Excellent inhaler techniques demonstrated

Correct inhalation technique
