The Centre for European Research

The Centre is an interdisciplinary forum for the promotion of research and teaching on Europe. Based in the School of Politics and International Relations, Queen Mary University of London, we provide a platform for engagement between the academic community and policy officials, NGOs, practitioners and business leaders.

The Centre draws together expertise from across the University through traditional scholarly activities such as research seminars and public lectures with a European focus.

We support research through conferences and regular workshops featuring leading experts. The Centre is committed to promoting excellence in teaching and learning on Europe by engaging research students and visiting scholars.
