WORKSHOP 1: Dietary Impact on Health
JANUARY 18---20, 2017 – MAASTRICHT
Agenda

WEDNESDAY JANUARY 18

VENUE **Maastricht University / Academic Hospital**
P. Debyelaan 25, 6229 HX Maastricht, the Netherlands
Room: Greep zaal (take elevators A or B to the 4th floor)

SCIENTIFIC PROGRAM

8.30-9.00 Coffee

9.00-9.30 Welcome Chris Reutelingsperger and Mauro Perretti

9.30-10.05 Jon Lundberg: Metabolic effects of the dietary nitrate nitrite-NO pathway

10.05-10.40 Amrita Ahluwalia: Cardiovascular effects of the dietary nitrate-nitrite-NO pathway

10..40-11.00 Coffee break

11.00-11.35 Erik Biessen: Macrophage immune responses in cardiovascular diseases: Macrophages and (dietary) lipids in cardiovascular disease

11.35-12.10 Leon Schurgers: Vitamin K-metabolism and cardiovascular disease

12.10-13.45 lunch break

13.45-14.20 Hogne Vik: Vitamin K2 as nutritional supplement for healthy aging

14.20-14.55 Annabelle Scott: Open Access and Data Management Plan

14.55-15.15 Coffee break

15.15-17.30 ESR Presentation skills training and practice session: Jean-Paul Toonen: How to make a strong presentation with a good state of mind. Venue: Maastricht School of Management – address overleaf

15.15-16.30 PI meeting and discussion

19.30-22.30 Dinner at Brasserie FLO Maastricht, Stationstraat 28, 6221BR

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Sklodowska-Curie grant agreement No. *675111*

WORKSHOP 1: Dietary Impact on Health
JANUARY 18---20, 2017 – MAASTRICHT
Agenda

THURSDAY JANUARY 19

VENUE **Maastricht School of Management (MSM)**
Endepolsdomein 150, 6229 EP Maastricht, the Netherlands
Room: Business Lounge (MSM is located next to Randwyck train station, and on the same road as the Apart Hotel Randwyck, (map - see useful information).

8.30-9.00	Coffee
9.00-9.20	ESR1: Microparticles as natural nanomedicines to control vascular reactivity
9.20-9.40	ESR2: Exploration of the therapeutic potential of dietary nitrate in hypertension: role for XOR
9.40-10.00	ESR3: Influence of dietary interventions upon platelet reactivity and lipidome
10.00-10.20	ESR4: Targeted treatment of vascular calcification
10.20-11.00	Coffee break
11.00-11.20	ESR5: Re-instructing the atherosclerotic plaque macrophage
11.20-11.40	ESR6: FPR2 agonists as modulators of vascular complications of diabetes
11.40-12.00	ESR7: Instructing FPR2 and ChemR23 for treatment of atherosclerosis and myocardial infarction lunch break
12.00-13.30	Lunch break
13.30-13.50	ESR8: Role of inhaled NO for neuroinflammation after ischemic stroke
13.50-14.10	ESR9: Nitrates and renal hypertension: exploring engagement of NO and mitochondria reactivity
14.10-14.30	ESR10: The use of chemical biology to evaluate targets associated with vascular inflammation: identification and targeted delivery of novel agents for targets Coffee break
14.30-14.50	ESR11: Nutraceuticals modulating the vascular vitamin K-system
14.50-15.15	Coffee break
15.15-16.00	Plenary discussion

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Sklodowska-Curie grant agreement No. *675111*

WORKSHOP 1: Dietary Impact on Health
JANUARY 18---20, 2017 – MAASTRICHT
Agenda

FRIDAY JANUARY 20

Venue **Maastricht University / Academic Hospital**
P. Debyelaan 25, 6229 HX Maastricht, the Netherlands
Room: Greep zaal (take elevators A or B to the 4th floor)

9.00-9.30	Coffee
9.30-10.00	Dan Rosenbaum: Innovation through the Commercial Lens
10.00-10.30	Boris Blumberg: Entrepreneurial Models for Value Creation
10.30-11.00	Chris Reutelingsperger: A startup: bringing an idea from bench to market
11..00-11.30	Coffee break
11.30-12.00	Closing

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under the Marie Sklodowska-Curie grant agreement No. *675111*
