

# Teacher resources: Carbon Cycles

Carbon

<http://globecarboncycle.unh.edu/>

University of New Hampshire education project on carbon.

Lots of great activities ideal for A Level work – I have put copies of example notes and an activity in your teacher pack today

Carbon

<http://cmi.princeton.edu/wedges/>

The Carbon Mitigation Initiative, developed by Princeton University has the Stabilisation Wedge Game which is a great resource. Highly recommended. Don't be put off by fact it is a 'game' PowerPoints , all resources included ready to go Works well for A level students to explore green energy realities.
