

Tower Hamlets as a changing places: Health data

Statistics and graphs available on the website **Vision of Britain**. This site has collated census and historical maps going back to 1840s. Most recent data is approx. 2000. These examples for Tower Hamlets district are at <http://www.visionofbritain.org.uk/unit/10057346>

Total population.

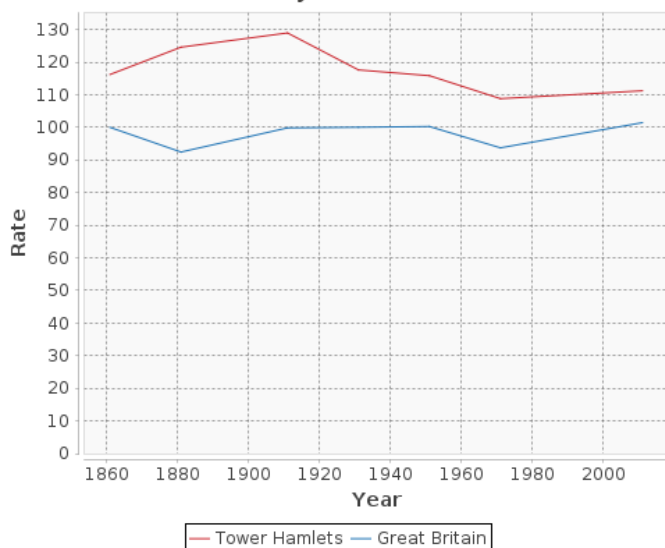

Infant mortality rate (deaths per thousand live births)

Mortality rate

(Actual deaths as % of expected number compared to national deaths for each time period
The UK rate is broadly 100% and it is the difference from that which is significant for the area comparison. Age and gender have already been taken into account)

Death from specific diseases

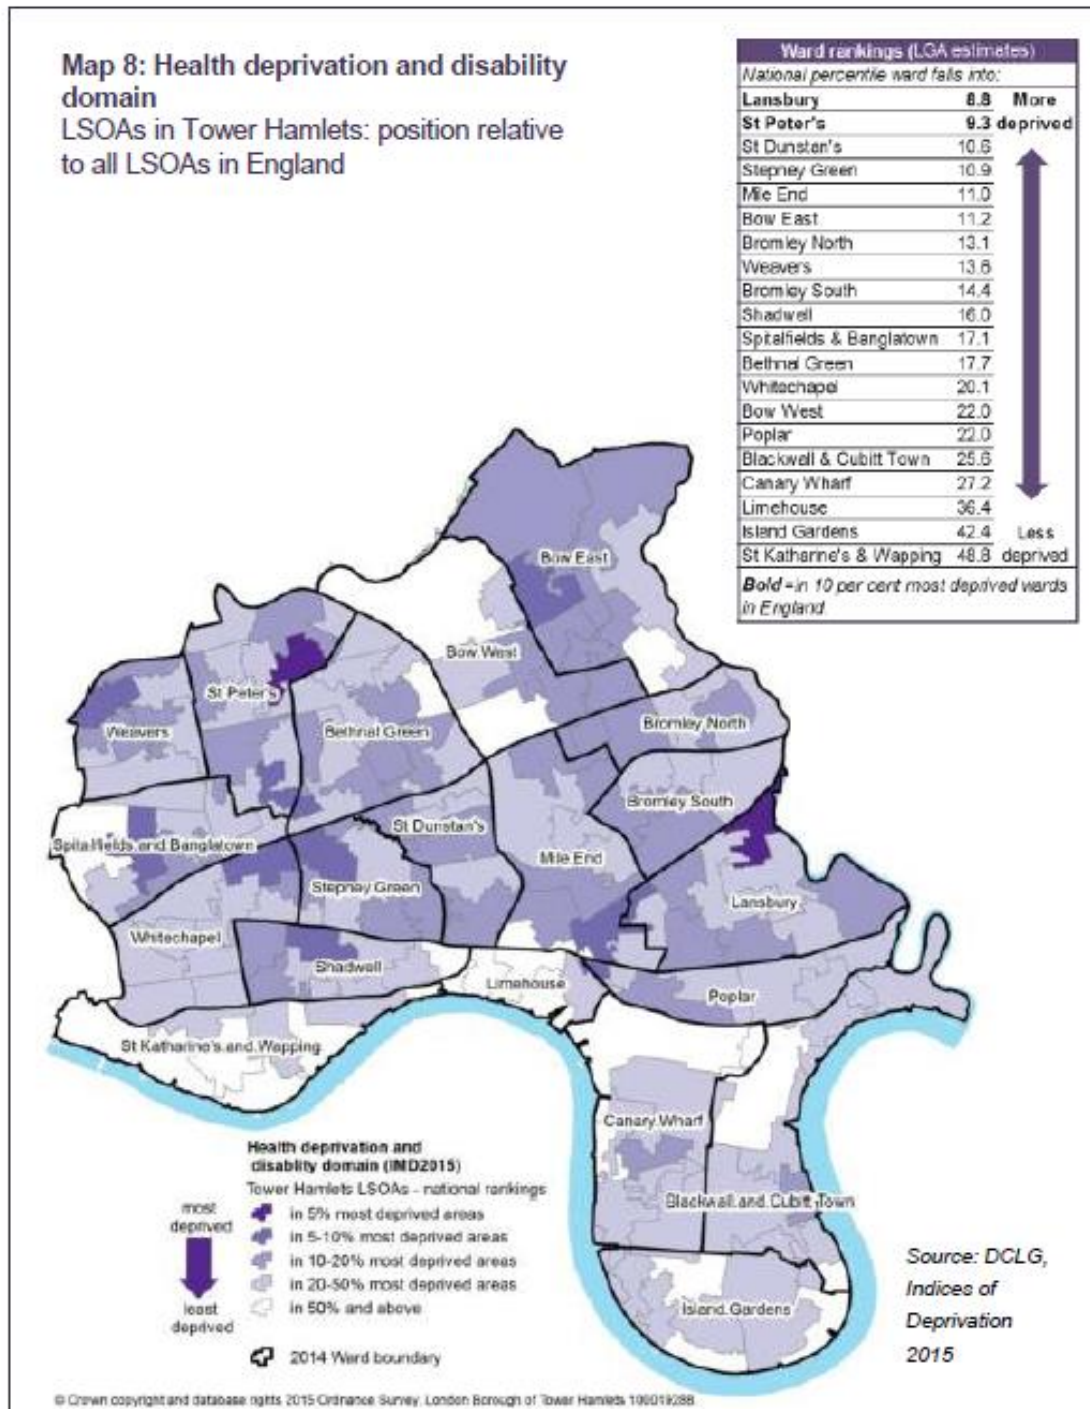

Per 100,000 people

2011

	Early death from heart disease or stroke	Early death from cancer	death attributed to smoking	obesity %
Tower Hamlets	113	141	306	19.4 %
London	75	108	207	21%
England	70	112	216	24%
