Programme Accredited by	N/A
Date Programme Specification Approved	12 Feb 2014
Responsible School / Institute	School of Business & Management

Schools which will also be involved in teaching part of the programme

N/A

Institution(s) other than Queen Mary that will provide some teaching for the programme

N/A

Programme Outline

Studying BSc Business Management you will examine key strategic issues in the metropolis, including financial governance and regulation, innovation and change, the creative industries and information and communication technologies, globalisation, development and security, equality, diversity and exclusion, social entrepreneurship and civil society organisations, and new forms of work. This strategic focus means our students are up to date with new developments and possibilities across many business sectors.

Our staff work across an eclectic range of academic areas with a particular emphasis on inter-disciplinary links. Research within our School focuses on the connections between economic, social, political and cultural life and modern business and management.

Aims of the Programme

The Business Management (BM) degree builds on well-established courses in business studies. The aim is to provide a comprehensive undergraduate degree which will prepare students for careers in business, commerce and public organisations. The degree overall emphasises creativity, analysis and breadth of knowledge. It will provide a general appreciation and knowledge of the roles and operations of business in society rather than specific techniques, in order to prepare graduates for conditions of change and requirements of flexibility. The conceptual content is high while specific techniques are not overly

emphasised.

What Will You Be Expected to Achieve?

The aim of the programme is to equip students with the skills to operate flexibly and effectively in business organisations (business is held to include public sector organisations). In general terms students will learn to analyse, synthesise and clearly present material. They will understand the complexity of business as social practice and be capable of apposite judgement on business concerns. They will learn to apply the concepts of business to particular cases and make reasoned and substantiated judgements.

The compulsory modules will ensure that all students have common skills and competencies.

They will understand the complexity of the relationships between business and the rest of society and will have a basic grasp of the interrelationship of the functions of production.

Academic Content:

A 1	Knowledge and awareness of a range of subjects, fields, theories and approaches applicable to business and management of people and organisations in a business context.
A 2	Knowledge and understanding of analytical tools used to analyse and interpret management problems, challenges and risks in a changing context.
A 3	Develop a critical understanding of the economic, social and political environments which affect human relations in an organisation and the implications for its structure and culture.

Disciplinary Skills - able to:

B 1	Develop an understanding of the theories, analytical approaches, methodologies and practices that underpin management in a business context.
B 2	Evaluate, extrapolate and synthesise relevant literature and empirical data and competently apply these to different business and management contexts.
B 3	Develop students' ability to apply management theory to the analysis of a broad range of actual management problems.

Attributes:

C 1	To learn continuously within academia and beyond and to employ relevant information and knowledge in understanding different contexts.
C 2	To acquire research skills and values which can provide different approaches to problem solving and decision making in a business context.
C 3	Develop knowledge and analytical skills that are transferable to employment including negotiation and communication skills.

How Will You Learn?

The School promotes active learning within a context of clear learning objectives. Students are encouraged to take responsibility for their own learning. Most modules have a weekly course element and in some this will require collaborative group work. We expect informal work groups to emerge particularly in the more numerically based subjects. Clear guidance on basic and supplementary reading is given.

We recognise the value of independent work at final year level for undergraduates. We consider it important to develop the ability of students to undertake basic research through both practical and theoretical means and to develop the ability to write sustained, coherent narratives. In order to enable students to develop their skills we will offer extensive modules requiring independent work using written and presentational skills.

How Will You Be Assessed?

The School schedules an annual Business Management Examination Board which considers all student academic profiles and agrees classifications and progression routes. Modules are assessed by a combination of coursework, presentation, incourse tests and a final examination. Clear guidance on coursework requirement is given, emphasising approaches to coursework of various types and how to avoid plagiarism, together with rules and procedures. Examinations are typically of a two hour paper undertaken in the May/June diet of exams. Examination papers will be reviewed by an Internal Moderator and then by External Examiners. All exam papers go through a moderation marking procedure. A selection of first class and failed scripts together with a representative sample of intermediate scripts are sent to the External examiners for quality control and approval of marks. Undergraduates have one opportunity to re-sit failed modules: for first and second year students the only opportunity is the late summer resit period or in exceptional circumstances, in the following year's main examination period. Re-sit module marks are capped at 40%.

How is the Programme Structured?

BSc Business and Management is a three year degree, taught within the University's modular system. Each academic year comprises of eight modules per year, each of which is normally assessed by a combination of coursework and/or an examination in May/June. To complete the degree each student will need to have taken twenty-four modules.

Of the eight compulsory modules in Level 4, students can choose from a wide variety of elective modules in Levels 5 and 6. The range of modules available each year can vary from year to year.

SUSPENDED MODULES FOR 2014-15

BUS332 Financial Accounting and Reporting
BUS325 Organisation and Environment

Academic Year of Study 1

Module Title	Module Code	Credits	Level	Module Selection Status	Academic Year of Study	Semester
Economics for Business and Society	BUS108	15	4	Compulsory	1	Semester 1

What Are the Entry Requirements?

As/A-level:

Typical tariff or grades required: 320 points from three A-levels, equivalent to ABB at A-level. However, if students do not perform as well in one subject and do better in others, then that is acceptable providing they gain the minimum number of points overall required for the degree programme.

Additional information: AS-level subjects are not counted towards the 320 point requirement. Students must also have five GCSEs at grade A-C including B in English and B in maths.

Excluded subjects: General Studies and Critical Thinking.

International Baccalaureate:

Subjects and grades: 34 points overall with at least six in Standard Level English or five in Higher Level English, and at least four in (any level) of mathematics.

Vocational and other qualifications: The College accepts a wide range of qualifications such as; Access and Foundation

How Do We Listen and Act on Your Feedback?

The Staff-Student Liaison Committee provides a formal means of communication and discussion between schools/institutes and its students. The committee consists of student representatives from each year in the school/institute together with appropriate representation from staff within the school/institute. It is designed to respond to the needs of students, as well as act as a forum for discussing programme and module developments. Staff-Student Liaison Committees meet regularly throughout the year.

Each school/institute operates a Learning and Teaching Committee, or equivalent, which advises the School/Institute Director of Taught Programmes on all matters relating to the delivery of taught programmes at school level including monitoring the application of relevant QM policies and reviewing all proposals for module and programme approval and amendment before submission to Taught Programmes Board. Student views are incorporated in the committee's work in a number of ways, such as through student membership, or consideration of student surveys.

All schools/institutes operate an Annual Programme Review of their taught undergraduate and postgraduate provision. APR is a continuous process of reflection and action planning which is owned by those responsible for programme delivery; the main document of reference for this process is the Taught Programmes Action Plan (TPAP) which is the summary of the school/institute's work throughout the year to monitor academic standards and to improve the student experience. Students' views are considered in this process through analysis of the NSS and module evaluations.

Academic Support

The induction week before the start of Semester A provides introductory talks on all the services and support mechanisms available within the school and college. The plasma screens within the school also update on timetabling, events and support services within the school. The virtual learning environment (QMplus) has information on the different modules and supervisory advice for dissertations as well as personalised teaching timetables. Students are also advised on the support services available in the Language and Learning Unit. A module talk is held at the start of the module selection process to enable students make informed choices when selecting their electives for the following academic year.

Students are assigned a dedicated supervisor for their core dissertation module.

Undergraduate Programme Director(s)

The School has two academic Programme Directors who are able to support students through their studies, if they encounter any difficulties of a personal nature which are having an impact on their studies they can meet with either of the Directors for support.

First Year Co-ordinators

The School has also a dedicated team of academic co-ordinators who support and guide students through the first year of transition.

Academic Advisors

Every student is allocated an Academic Advisor who they can approach should they have any queries or issues related to their academic studies or academic development. Students are expected to see their advisor at least once each semester.

Office Hours

All academics have dedicated office hours published on the website so students may visit them to discuss any aspect of their learning on specific modules.

PASS Scheme

The Peer Assisted Study Support (PASS) scheme aims to increase first year students' understanding of concepts central to their academic lives. In addition, the scheme seeks to develop leadership, management, and communication skills in second and third year students who serve as PASS mentors.

Programme-specific Rules and Facts

All first year (level 4) students are automatically registered for first year modules. In April/May, first and second year students will receive module information and will be required to register their module choices for the following year.

Second year students must study 8 level 5 modules. Any second year student wishing to study the BUS314 Dissertation module

Programme Title: BSc Business Management

in their 3rd year must also study BUS007 Research Methodology in the second year, achieve above 60% on the module and above 65% across all second year module assessments (where module assessments have been completed and marks are available at the time of enrolment).

Third year students can take any 8 of the level 6 modules on offer or 6 modules, 3 in each semester plus the BUS314 Dissertation module. In 2014/15 only, third year students taking the BUS314 Dissertation module must study BUS007 Research Methodology as a co-requisite in semester 1 and must have an average of 65% in the available second year assessments.

The School has locked academic levels to developmental years (L4 in Y1, L5 in Y2 and L6 in Y3). This restricts third year students from taking any level 5 modules in the third year with the exception of BUS007 Research Methodology if the student is taking the BUS314 Dissertation module in 2014/15 only.

Specific Support for Disabled Students

Queen Mary has a central Disability and Dyslexia Service (DDS) that offers support for all students with disabilities, specific learning difficulties and mental health issues. The DDS supports all Queen Mary students: full-time, part-time, undergraduate, postgraduate, UK and international at all campuses and all sites.

Students can access advice, guidance and support in the following areas:

- Finding out if you have a specific learning difficulty like dyslexia
- Applying for funding through the Disabled Students' Allowance (DSA)
- Arranging DSA assessments of need
- Special arrangements in examinations
- Accessing loaned equipment (e.g. digital recorders)
- Specialist one-to-one "study skills" tuition
- Ensuring access to course materials in alternative formats (e.g. Braille)
- Providing educational support workers (e.g. note-takers, readers, library assistants)
- Mentoring support for students with mental health issues and conditions on the autistic spectrum.

Links With Employers, Placement Opportunities and Transferable Skills

Graduates from this programme will have developed a range of cognitive and practical skills together which will be applicable to be different context beyond academia.

The School offers a range of internships available to students throughout their academic programme of study. The School also works closely with the Careers Service and has an Internship Coordinator located in the SBM office to locate possible placements, internships and to help create effective CVs to reach potential employers.

Throughout each academic year, the School invites a series of external speakers from a range of employers that integrates with a variety of modules.
