Programme Specification (PG)

Awarding body / institution: Queen Mary University of London
Teaching institution: Queen Mary University of London
Name of final award and title: MSc Marketing and Digital Communications Postgraduate Certificate (PgCert), Postgraduate Diploma (PgDip)
Name of interim award(s): Postgraduate Certificate (PgCert), Postgraduate Diploma (PgDip)
Duration of study / period of registration: 1 year
Queen Mary programme code(s): PSMDC/N1C4
QAA Benchmark Group: Business and Management
FHEQ Level of Award: Level 7
Programme accredited by: 
Date Programme Specification approved: 
Responsible School / Institute: School of Business & Management

Schools / Institutes which will also be involved in teaching part of the programme:
School of Business & Management

Collaborative institution(s) / organisation(s) involved in delivering the programme:
N/A

Programme outline

The MSc Marketing and Digital Communications programme is designed to provide a conceptual, methodological, strategic application and knowledge on Marketing and Digital communications considering the complexities of devising strategies for the digital age with the emergence of new platforms as part of the digital economy and consumption culture. Through the idea of integrating mainstream marketing and communication concepts and theories with relevance to the dynamic and fast-changing digital environment, the course provides an insight into developing practical strategies for marketing and communicating in the marketplace taking into account the constraints, opportunities, risks and technical elements of the digital architecture and economy. It explores strategies in driving marketing and communication campaigns from new product development, crisis communication to green marketing and sustainability issues. The compulsory modules build on foundational knowledge and skills on marketing and consumer behaviour concepts and theories. Additionally, the opportunity for greater specialization and flexibility is provided through a number of elective modules.

Aims of the programme

The programme extends the present offering of the Department of Marketing with a dedicated programme on Marketing and the digital communications drawing on the challenges and opportunities it presents. It draws on the conceptual and
methodological strengths of the existing marketing programme (i.e. Msc Marketing) and further leverages on the research and knowledge expertise in the department on digital communications and digital analytics. The integration of marketing and digital communications from a global paradigm will allow the students to acquire a broad overview of the digital economy and equally it will give an insight into the interrelationship between marketing and the digital economy today, in terms of communication strategies and application of marketing concepts of relationship building and networked communication within a digital society. The proposed programme seeks to integrate the cutting-edge developments in the sector and subject area initiated through digital technologies and leverages on the existing expertise of academic staff many of whom are researching on digital media, digital methodologies and marketing. This programme will grow student recruitment whilst making available new modules as electives for the present and proposed new Masters programmes in marketing.

This programme aims to:

1) offer an access to a graduate degree for students with different academic backgrounds that include social sciences and humanities but not exclusively in order to meet a diversity of student aspirations;
2) provide a highly professional degree that offers students the advanced knowledge in the field of marketing and digital communications and the adaptive nature of the digital economy
3) develop critical thinking and analytical skills to evaluate, assess and apply the latest development of the digital platforms and opportunities into the marketing solutions and strategies
4) develop interdisciplinary skills in the area of marketing and digital communications through the perspective of utilizing big data and platforms
5) enhance professional skills of how to transfer knowledge into the specific business processes in the evolving digital ecosystems;
6) motivate students to continue their personal development of transferable skills
7) to enhance students employability skills.

What will you be expected to achieve?

The programme will build the following broad skills:

1. Ability to develop independent and critical insights from research and learning on marketing concepts and digital communications.
2. Critically evaluate approaches to marketing and communication strategies through real world examples.
3. Ability to assess the risks and opportunities within the digital landscape for relationship building and for building consumer communities.
4. Communicate effectively and with sensitivity to cultural or other relevant contextual factors within global platforms
5. Acquire a view of marketing and management which is influenced by a wide range of learning sources, based on a proactive and independent approach to learning.

Academic Content:

<table>
<thead>
<tr>
<th>A1</th>
<th>Critically understanding of marketing and communications concepts in the digital economy</th>
</tr>
</thead>
<tbody>
<tr>
<td>A2</td>
<td>Develop insights into international marketing and digital communications from cross-cultural paradigms</td>
</tr>
<tr>
<td>A3</td>
<td>Critique the limitations of marketing approaches informed through critical readings of literature</td>
</tr>
<tr>
<td>A4</td>
<td>Develop advanced qualitative and quantitative research skills;</td>
</tr>
</tbody>
</table>

Programme Specification PG / 2021-22/ V1 Page 2 of 9
Programme Title: MSc Marketing and Digital Communications

<table>
<thead>
<tr>
<th>A5</th>
<th>Exploration of different approaches for segmentation, targeting, positioning, generating sales and the need for innovation in product and service design in the digital economy;</th>
</tr>
</thead>
<tbody>
<tr>
<td>A6</td>
<td>Engage with the concepts and theories on the Digital Economy as a platform for marketing.</td>
</tr>
<tr>
<td>A7</td>
<td>An overview of digital communication channels and platforms including issues of risks and challenges.</td>
</tr>
<tr>
<td>A8</td>
<td>Understanding of tools and techniques for transforming (big) data into useful information for business analysis and communication strategies.</td>
</tr>
</tbody>
</table>

Disciplinary Skills - able to:

<table>
<thead>
<tr>
<th>B1</th>
<th>Integrate interdisciplinary paradigms in analyses of issues through marketing concepts and communication theories.</th>
</tr>
</thead>
<tbody>
<tr>
<td>B2</td>
<td>Apply the principles of international marketing and digital communication theories to cross-cultural contexts.</td>
</tr>
<tr>

<td>Critique the relevance and limitations of communication and marketing concepts to the digital terrain.</td>
</tr>
<tr>
<td>B5</td>
<td>Examine the limitations of normative Western paradigms of marketing concepts to different cultural contexts.</td>
</tr>
<tr>
<td>B6</td>
<td>The ability to analyse and evaluate a range of business data, sources of information and appropriate methodologies.</td>
</tr>
<tr>
<td>B7</td>
<td>Identify and critique the opportunities, challenges and risks presented by digital communication platforms.</td>
</tr>
<tr>
<td>B8</td>
<td>Engagement with alternative paradigms with relevance to digital culture and online consumption.</td>
</tr>
</tbody>
</table>

Attributes:

<table>
<thead>
<tr>
<th>C1</th>
<th>Be able to independently on a piece of chosen area of research.</th>
</tr>
</thead>
<tbody>
<tr>
<td>C2</td>
<td>An awareness of the interpersonal skills of effective listening, negotiating, persuasion and presentation.</td>
</tr>
<tr>
<td>C3</td>
<td>Be able to work collaboratively in a team.</td>
</tr>
<tr>
<td>C4</td>
<td>Sensitive to issues of inclusivity and ethical paradigm in problem solving for the digital economy.</td>
</tr>
<tr>
<td>C5</td>
<td>Ability to work with people from a range of cultures.</td>
</tr>
<tr>
<td>C6</td>
<td>Communication and listening, including the ability to produce clear, structured business communications in a variety of media.</td>
</tr>
<tr>
<td>C7</td>
<td>The development of conceptual and critical thinking, analysis, synthesis and evaluation of the digital economy.</td>
</tr>
<tr>
<td>C8</td>
<td>Self-reflection: self-analysis and an awareness/sensitivity to diversity in terms of people and cultures.</td>
</tr>
</tbody>
</table>
How will you learn?

The teaching team is comprised of Teaching and Research (T&G) and Teaching & Scholarship staff, complemented where relevant by visiting lecturers with professional industry expertise to combine professional knowledge and professional experience into the praxis of the international marketplace and marketing sectors such as communications, advertising, Public Relations, etc. Students will therefore benefit from this mix of expertise accruing from research, scholarship and industry insights.

Teaching:

Each module has an outline description, giving the aims, expected learning outcomes, assessment methods, outline syllabus and indication of primary reading. This information will be available online on the School’s online teaching portal (i.e. QMPlus).

Students typically have 3 contact hours per week in each module. Within these three hours, each module has its own pattern of lectures, seminars/classes and other activities. Lectures emphasize dissemination of information, explain the core/key concepts adhering to the structure of the module outline, determine the focus and sequence and set out the pace of learning. The pacing and sequencing correspond to the duration of the semester. The resonance of topics between different modules are meant to be reiterative in terms of emphasizing core/key ideas. Seminars/classes make for a more agile, in-depth discussions drawing from the broader focus of the lectures and are often designed to be interactive and participatory in terms of the learning experience by facilitating discussions, problem solving, group work, group activities case studies and presentations (where relevant in accordance with the aims and objectives as well as learning outcomes of each module).

To achieve the learning outcomes of the programme the following pedagogical forms of teaching are to be deployed within a blended learning environment. These include inclusive approaches which seek to decolonize and critique normative paradigms of thought. Other modes of learning include inquiry-based learning, application of ideas, deconstruction, as well as collaborative and reflexive ontologies. These forms are to be deployed through a large scale of varied teaching and learning activities that include the standard lectures that will be accompanied by the small group seminars, one-to-one tutorials, expert lectures, group-work, independent studies, research projects, team group learning.

The learning outcomes - academic content A1-A8 - will be achieved through lectures, tutorials and research projects.

The learning outcomes - disciplinary skills B1- B8 - will be achieved through a series of lectures, case studies, tutorials, sessions, private studies, group exercises.

The learning outcomes - attributes C1-C9 - will be achieved through lectures, guest lectures, tutorials, research projects, one to one tutorials.

The variety of the proposed learning approaches that will be underpinned by the elements of the fundamental pedagogical approaches as outlined above, and will enhance the quality of student experience. It is necessary to underscore the fact that the knowledge construction and interdisciplinary skills are achieved through the designed structure of the programme that uses three teaching terms.

How will you be assessed?

The learning outcomes that include academic content and disciplinary skills are assessed in each module through the following assessments: coursework, essays, projects, presentations and exams. But there is considerable variation across modules, and some are wholly examined by coursework. The assessment methods are carefully designed for each module and there are the required variations of the used assessment methods to fully capture the essence of the specific modules and the specific learning outcomes. It is important that timely and detailed feedback provided to students is an integral part of the assessment process. Clear guidance on coursework requirements is given emphasizing approaches to coursework of various types and the avoidance of plagiarism. Standard College procedures are followed in the setting and marking of examinations and in the determination of overall results.
How is the programme structured?
Please specify the structure of the programme diets for all variants of the programme (e.g. full-time, part-time - if applicable). The description should be sufficiently detailed to fully define the structure of the diet.

In the week before Semester A teaching begins, the Director of Postgraduate Taught Programmes leads a two-day induction session for the cohort entering that year. This covers Compulsive and Elective Modules in each Programme; Choice of Electives; the Documentation Students must Complete; Exams; Coursework and Assessment; the Student Handbook; Security and Safety; Library Resources; IT Resources; SSLC; Careers Advice; Help with English; and Campus Tours.

The programme is full-time delivered across 3 semesters in 1 academic year, with 4 modules in semester 1 and 2, with the dissertation project overlapping between semesters 2 & 3;

Semester 1: Theoretical and Compulsory:
Introduction to Marketing Management (BUSM137)  
Networked and Influencer Marketing (BUSM207)  
Digital Economy, Big Data and Platformization – Issues and Concepts (BUSM205) Consumer and Digital Cultures (BUSM204)

Semester 2:  
Compulsory:  
Advertising and Media Strategies (BUSM209)  
Integrated Digital communications and campaigns (BUSM212) Research Methods for Marketing (BUSM098)

Electives  
Brand Storytelling in the Digital Age (BUSM210) Brand Management (BUSM026)  
Sustainable Marketing, Ethics and CSR (BUSM214) Social and Political Marketing (BUSM095)

Semester 2 & 3:  
Dissertation for Marketing (BUSM106)

What are the entry requirements?

The programme is designed for students with a bachelor’s degree (2:1 or above) in the social sciences. IELTS Academic: 7.0 overall including 6.0 in Writing, and 5.5 in Reading, Listening and Speaking or equivalent exam.

How will the quality of the programme be managed and enhanced? How do we listen to and act on your feedback?

The Student academic performance and the academic quality of the programme are to be closely monitored, managed and enhanced through the following mechanisms:

The Programme Director works closely with the Deputy Dean of Education, the Head of Department and the School of Business and Management Teaching and Learning Committee. As a result, any issues are identified earlier for remedy. For example, issues may be cited by students or the external examiner and meetings held monthly. In addition, the Programme Director works closely with the School’s Student Engagement Team to update students on important aspects concerning quality, including Plagiarism workshops, additional short courses on writing and support from academic tutors.

The School of Business and Management has a dedicated member of academic staff to scrutinise the latest and past NSS scores, in addition to module evaluations.

The school regularly sends staff members to attend CABS conferences (Chartered Association of Business School). These conferences bring together colleagues from business schools across the UK and foster an exchange between them on how to manage business schools effectively and how to best teach students about business. These interactions ensure that our students are taught using the most recent methods.

The Staff-Student Liaison Committee (SSLC) provides a formal means of communication and discussion between schools/ institutes and its students. The committee consists of student representatives from each year in the school/institute together with appropriate representation from staff within the school/institute. It is designed to respond to the needs of students, as well as act as a forum for discussing programme and module developments. Formally, the SSLC meets twice a semester, with a student representative from each programme. Informally, each student in the programme has access to the Programme Director, who reports to the Director of Postgraduate Taught Programmes.

Each school operates a Learning and Teaching Committee, or equivalent, which advises the School’s Associate Dean for Education on all matters relating to the delivery of taught programmes at school level including monitoring the application of relevant QM policies and reviewing all proposals for module and programme approval and amendment before submission to
Programme Title:  Msc Marketing and Digital Communications

Taught Programmes Board. Student views are incorporated in the committee's work in a number of ways, such as through student membership, or consideration of student surveys.

Curriculum development and delivery are overseen by the Programme Director through the relevant School Teaching Review Group which reports to the School's Teaching and Learning Committee. The School's Teaching Review Groups oversee teaching methods in each module, taking into account student evaluations and comments, means and distributions of examination marks, and external examiner reports. Development of individual teaching is guided through peer review, participation in staff development courses, the appraisal system and teaching evaluation. Account is also taken of views put forward by Department Meetings and the Student-Staff Liaison Committee as well as external sources (external examiners, and views filtered through the College's International Office).

All schools operate an Annual Programme Review (APR) of their taught undergraduate and postgraduate provision. APR is a continuous process of reflection and action planning which is owned by those responsible for programme delivery. Students' views are considered in this process through analysis of the NSS and module evaluations.

In addition, the director of the programme collaborates with technological companies and industry experts to reflect on the content of degree (1 x a year - director of the programme). External examiners provide feedback on the content of the programme and academic performance.

What academic support is available?

The School of Business and Management aims to provide a high quality teaching and learning environment. Teaching will be by research-oriented staff complemented where appropriate by Teaching Fellows, who will combine specialist knowledge of their subject with a critical attitude to its delivery. Students will, accordingly, be working in a challenging, supportive environment.

The induction week before the start of Semester A provides introductory talks on all the services and support mechanisms available within the school and college. The plasma screens within the school also update on timetabling, events and support services within the school. The virtual learning environment (QMplus) has information on the different modules and supervisory advice as well as personalised teaching timetables. Students are also advised on the support services available in the Language and Learning Unit. A module talk is held at the start of the module selection process to enable students make informed choices when selecting their electives.

Postgraduate Programme Director
The School has one academic Programme Director who is able to support students through their studies, if they encounter any difficulties of a personal nature which are having an impact on their studies they can meet with the Director for support.

Academic Advisors
Every student is allocated an Academic Advisor who they can approach should they have any queries or issues related to their academic studies or academic development. Students are expected to see their advisor at least once each semester.

Office Hours
All academics have dedicated office hours published on the website so students may visit them to discuss any aspect of their learning on specific modules.

Programme-specific rules and facts

N/A
How inclusive is the programme for all students, including those with disabilities?

Queen Mary has a central Disability and Dyslexia Service (DDS) that offers support for all students with disabilities, specific learning difficulties and mental health issues. The DDS supports all Queen Mary students: full-time, part-time, undergraduate, postgraduate, UK and international at all campuses and all sites.

Students can access advice, guidance and support in the following areas:
- Finding out if you have a specific learning difficulty like dyslexia
- Applying for funding through the Disabled Students’ Allowance (DSA)
- Arranging DSA assessments of need
- Special arrangements in examinations
- Accessing loaned equipment (e.g. digital recorders)
- Specialist one-to-one “study skills” tuition
- Ensuring access to module materials in alternative formats (e.g. Braille)
- Providing educational support workers (e.g. note-takers, readers, library assistants)
- Mentoring support for students with mental health issues and conditions on the autistic spectrum.

All reading lists have been reviewed to coincide with the new blended learning environment in response to the pandemic and the necessity for electronic versions of module texts, with all staff encouraged to use the space for Talis / Reading Lists Online within the updated QMPlus module sites.

QMPlus modules sites have been significantly developed during 2020/21, to be re-purposed and further developed in 2021/22 and beyond, including significant video and audio materials on all modules for asynchronous learning, supplemented by video recordings of essential material also made available post-live sessions. This practice shall continue on return to in-person teaching via further development of QMPlus modules sites, linked to QReview, and with a move towards the standard use of SensusAccess before uploading QMPlus materials. Due allowance will be made for students to record seminars, if necessary, and seminar discussions and classroom arrangement will furthermore take into account any special arrangements. Students requiring additional time for completion of assessments i.e. in-class tests and presentations as recommended by DDS will have the adjustments made by the module administrator. In addition, marking of assessments will take into consideration any neurodiversity i.e. not penalising sentence structure or grammar.

Links with employers, placement opportunities and transferable skills

Graduates from this programme will have developed a range of cognitive and practical skills together which will be applicable to different context beyond academia.

The School works closely with the Careers Service to locate possible work placements/ internships and to prepare students for the recruitment process (e.g. assistance in creating effective CVs to reach potential employers, interview skills).

The qualities and skills a graduate from this programme might be expected to have include a range of cognitive and intellectual skills together with techniques specific to business and management, and relevant personal and interpersonal skills. These include:
- The ability to think critically and creatively; organise thoughts, analyse, synthesise and critically appraise. This includes the capability to identify assumptions, evaluate statements in terms of evidence, detect false logic or reasoning, identify implicit values, define terms adequately and generalise appropriately
- The ability to conduct research into business and management issues either individually or as a part of a team through research design, data collection, analysis, synthesis and reporting
- Effective performance within team environments and the ability to recognise and utilise individuals’ contributions in group processes and to negotiate and persuade or influence others; team selection, delegation, development and management.
- Ability to recognise and address ethical dilemmas and corporate social responsibility issues, applying ethical and organisational values to situations and choices.
