80 Newark Street,
London
E1 2ES

Dear Atiqa Miah

Study title:	United Kingdom Adult Idiopathic Thrombocytopenic Purpura (ITP) Registry: An Investigation of Disease Progression, Treatment Effectiveness, and Co-morbid Conditions
REC reference:	07/H0718/57
Amendment number:	Substantial Amendment 6
Amendment date:	18 May 2018
IRAS project ID:	4961

This amendment consisted of a change of Chief investigator, removal of the option to consent via invitation pack from the registry team at the Royal London Hospital, consent will be taken by the local site, GP data collection and entry to be done by the local site rather than the registry team, addition of the pregnancy database with Dr Sue Robinson as sub-investigator for this section, simplification of the number of forms and information sheets, reduction in amount of blood to be collected and patients from the Royal London Hospital only will be invited to take part in a sub-study looking at platelet functionality and immunological profiling.

The above amendment was reviewed by the Sub-Committee held by correspondence.

Ethical opinion

The members of the Committee taking part in the review gave a favourable ethical opinion of the amendment on the basis described in the notice of amendment form and supporting documentation.

The members of the Sub-Committee noted some errors in the Patient Information Sheets and asked for these to be corrected, the researcher sent in corrected forms and the Committee were content with the changes.

The members of the Sub-Committee raised no ethical concerns regarding this amendment and were content to issue a favourable opinion.
