

## ICC-BAKER MCKENZIE ANNUAL CONFERENCE 2021: Trends and developments in Global Competition Law

### ICC-Baker McKenzie Annual Conference 2021:

### Trends and Developments in Global Competition Law

This conference offers a unique forum for exchanging ideas and discussing recent developments in competition law across the globe. It brings together leading figures in the field from around the world including judges, competition officials, academics, in-house counsel and private practitioners. The conference combines the policy perspective of the London-based Institute for Competition and Consumers (ICC) with the practical experience of the international law firm Baker McKenzie.

Due to the pandemic, we will hold the conference online again this year and confine it to two areas of focus: "**Competition law and digitalisation**" and "**Investigations during the pandemic**". Our aim is to bring to our audience a comprehensive update of recent developments related to these topics which will be presented in an analytical and thought-provoking way by a high-level panel of speakers from around the globe.

An online conference organized by the Institute for Competition and Consumers (ICC) of Queen Mary University of London and global law firm Baker & McKenzie.

#### About this event
