Medical Negligence: Non-Patient and Third Party Claims

Rachael Mulheron, Queen Mary University of London, UK

Healthcare professionals face an increasing threat of litigation from parties whom they have never met in their daily medical practice and who look nothing like the traditional patient. This book explores the legal principles and conundrums which arise when determining a healthcare professional's liability in negligence towards a wide variety of non-patients.

Contents: Preface; **Part I Setting the Context:** The book: an overview; Establishing negligence in novel non-patient scenarios. **Part II Actual or Potential Negligence Liability for Physical Injuries to Non-Patients:** Injuries to non-patients caused by physically-impaired or mentally-ill patients; Contraction or inheritance of disease by non-patients from patients; 'Bad Samaritan' liability: failing to assist non-patients; 'Good Samaritan' liability: intervening to assist non-patients. **Part III Actual or Potential Negligence Liability for Non-Physical Injuries to Non-Patients:** Pure economic loss claims by third parties associated with the patient; Pure psychiatric injury claims by third parties associated with the patient; 'Fear-of-the-future' claims by non-patients; Wrongfully-accused third parties in neglect or abuse cases; Appendix; Bibliography; Index.

'Professor Mulheron's path-breaking book addresses what is set to become an important dimension to professional liability. Approaching the subject with characteristic innovation and thoroughness, she has written what will become a standard reference work for both practicing and academic lawyers. Professor Mulheron brings her extensive knowledge of common law developments to bear so the book will be of use across jurisdictions. Her insights will make the book of value not only to those interested in medical and professional liability law but to all who wish to know where the law of civil wrongs is heading.'

The Honourable Mr Justice Cranston FBA, Judge of the High Court, Queens Bench Division

'A book that explores these unusual aspects of health care liability is very welcome. Its style and organization is matched by its erudition. In dealing with an area of growing importance, the book provides a very useful addition to the medical law library.'

Richard Lewis, Cardiff University, UK
