Assessment Title: COVID-19 Secure Workplace Risk Assessment for The Hive (Library Services).

Assessment Outline: To carry out a risk assessment in order to comply with government guidance and ensure Queen Mary University of London is a COVID-19 Secure workplace. Library Services has a duty to reduce workplace risk to the lowest reasonably practical level by taking preventative measures. This risk assessment covers these control measures in the context of COVID-19. The RA will be carried out in line with QMUL COVID-19 Secure procedures. Students will be responsible for their own health and safety within QMUL COVID-19 Secure procedures. Students must agree to Terms and Conditions when making a booking to use the service. The information provided makes it clear that students should not use the service if there is an increased risk to themselves or others due to their individual circumstances or health status. Engagement and Communication to Staff: Managers to ensure that all staff understand COVID-19 related safety procedures in their local area/department including risk assessments and safe systems of work. Engagement with staff to continue to monitor and understand any unforeseen impact of changes to working environments. This should be a two way communication offering feedback from staff.

Location of Risks: All main campuses

Further Location Information:
The space is predominantly used by students and is access controlled with a card reader. All seats will be booked and a staff member will be on hand periodically during the day. Security will have a list of students who have made bookings and are authorised to be there each day. Applies to the area identified above:

- Use of Non-PC study tables
- Use of PC desks
- Use of MFD (Multi-Function Device)
- Use of Vending Machines

Communal toilet is managed by EAF for RA purposes.

Assessment Start Date: 26/01/2021

Review or End Date: 03/05/2021

Location of non-electronic documents:
This risk assessment has been completed in line with Government guidance and QMUL COVID-19 SECURE Procedures - http://www.hsd.qmul.ac.uk/covid-19-secure-procedures/ The building level assurance tracker is updated weekly with the following link: http://qm-web.estates.qmul.ac.uk/media/estates-and-facilities-intranet/directorate-support/Covid-19-Building-Level-Assurance.pdf

Assessor(s):
- MURRAY, CHRISTINE
- ZAHID, AQIL

Approver(s):
- JANE ALDERSON-RICE
- SARAH COWLS
- KATE PRICE

Reason for Review
Type: Periodic Review

Reason:
Updated with changes. See email of 09.02.2021. Please note Hive is an overflow space due to low occupancy levels of Mile End Library.

Signed Off:
- JANE ALDERSON-RICE (09/02/2021 12:48)
- KATE PRICE (09/02/2021 16:15)
- SARAH COWLS (15/02/2021 10:41)

PEOPLE AT RISK (from the Activities covered by this Risk Assessment)
1. The Workplace - Learning Space

**Description of Activity:**
The workplace includes but is not limited to QMUL campuses and buildings.
Here the workplace is a Learning Space and whilst it is not staffed throughout its opening hours staff will periodically monitor.
Manpower security officers will be roving this area several times during the day.

### Hazard 1. COVID-19 virus exposure and transmission in the workplace

<table>

**Powered By OSHENS**
walkways need to be regulated and marked out to ensure social distancing.

Movement around buildings and between sites is discouraged by restricting access to some areas (e.g. card swipe).

Access is restricted to students and Library Staff.

Use of the space requires pre-booking, including a personal risk assessment and set of Health and Safety terms and conditions.

Signage has been displayed in prominent locations and guidance notes will be provided.

A vigorous cleaning regime operates across Library Services (Student and Academic Services) which includes frequent surface cleaning and incorporates HSD virus survival information and decontamination guidance - please see attached document 'QM EAF Service Delivery Plan COVID-19' under Libraries. (Please see below for ease of reference.)

The following will be carried out, where applicable:
- Empty centralised domestic waste bin points and damp wipe the external body with cleaner sanitiser (Daily)
- Sweep and mop flooring with mechanical scrubber using cleaner sanitiser (Daily)
- Vacuum carpets (Daily)
- Dust furniture, damp wipe all surfaces with cleaner sanitiser (Daily)
- Burnish hard flooring using cleaner sanitiser (Daily)
- Dust banisters and ledges using disinfectant (Daily)
- Top up hand sanitiser dispensers (Daily)
- Wipe stair treads and risers using disinfectant (Daily)
- Dust radiators, light switches, lamps etc. (Weekly)
- All surfaces will be regularly decontaminated with anti-viral fogging spray.

Frequent handwashing has been promoted across Library Services (Student and Academic Services) and consistent signage is displayed throughout The Hive.

Stocks of hand sanitiser and wipes will be monitored by the Cleaning Team.
The hand sanitiser is located upon entering. There are communal toilet facilities for users to wash their hands. Also, alcohol-based wipes have been provided to wipe any shared equipment.

Local risk assessments and safe systems of work are in place in The Hive - see RA000278.

Risk assessments and safe systems of work will need to be reviewed weekly, amended and updated at local level for The Hive activities to ensure compliance with the government requirements on making the workplace COVID-19 secure. Both the GOV.UK Guidance and HSD COVID-19 Secure Guidance documents must be followed when doing this.

QMUL Track and Trace Policy is now embedded in the Covid-19 Emergency Plan, and is regularly updated.

A ventilation evaluation has been undertaken in The Hive, and it was confirmed that the space can be used safely at 2M. The EAF ventilation assurance document is attached to this RA. A document entitled Managing thermal comfort whilst ensuring adequate ventilation has been circulated to all staff, and available on the HSD web site.

EAF have implemented an action plan to look at high priority areas such as large indoor spaces, toilets and kitchens to re-assess ventilation requirements as a result of information around the new variant. This action plan should identify and implement any ventilation improvement strategies that are needed or close the area from use (Jan 2021)

Staff (who are asymptomatic) are advised undergo regular Lateral Flow Device (LFD) testing at Queen Mary testing centres, ideally twice a week, to help reduce the spread of the virus.

The Queen Mary policy has been updated this week to mandate the wearing of face coverings at all times (if able to do so), even when seated.

Following the latest government information on the new COVID-19 variant Queen Mary has taken the decision to make the wearing of face coverings mandatory in all indoor spaces where 2 metres social distancing cannot be maintained. Face coverings must also be worn when walking around in buildings, in
Within our libraries and unsupervised study space it can be harder to effectively maintain 2 metres social distancing therefore the wearing of face coverings in these spaces is now mandatory at all times.

Face coverings do not need to be worn when eating or drinking or in student accommodation where students are living in defined household groups, or when 2 metres social distancing can be clearly maintained.

Only used as an overflow space due to low occupancy levels of Mile End Library.

2. Travel to and from The Hive

**Description of Activity:**
Travel to and from work, campus and building access and egress.

**Hazard 1. COVID-19 virus exposure and transmission coming to and from Canalside**

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

**Uncontrolled Risk:**

<table>
<thead>
<tr>
<th>Uncontrolled Risk:</th>
<th>Existing Control Measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>E - Very High</td>
<td>Handwashing facilities and/or hand sanitiser have been provided at entry/exit points to The Hive.</td>
</tr>
<tr>
<td></td>
<td>Social distance floor markings have been deployed for entering &amp; exiting.</td>
</tr>
<tr>
<td></td>
<td>Common surface contact areas are subject to regular cleaning regime.</td>
</tr>
<tr>
<td></td>
<td>Stocks of soap and sanitiser are checked and maintained daily by the cleaning team.</td>
</tr>
<tr>
<td></td>
<td>Advice given to ensure handwashing occurs upon arrival on site via signage posted in area.</td>
</tr>
<tr>
<td></td>
<td>Consistent signage is displayed throughout The Hive as a reminder.</td>
</tr>
</tbody>
</table>

**With Existing Controls:**

| C - Medium / Moderate |
Entry to buildings is by swipe access therefore eliminating need to use touchpads etc.

Not feasible to have more than one entry point. The booking system will maintain social distancing guidelines in terms of occupancy.

Secure bicycle facilities to help people avoid public transport, where possible, are available on campus.

Students will be directed to GOV.UK advice and HSD COVID-19 Hygiene, Gloves and Face Coverings on use of face coverings whilst travelling when provided with the procedure.

People entering or leaving Hive are asked to stay on the left on internal and external staircases.

Wipes provided at accessible height at the upper and lower levels of the disabled lift.

### 3. Emergency or incident response situation (e.g. fire evacuation)

| Description of Activity: | Fire safety evacuation, emergency first aid request and local first aid provision. |
## Hazard 1. COVID-19 virus exposure and transmission during an emergency or incident response situation (e.g. fire)

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

<table>
<thead>
<tr>
<th>Uncontrolled Risk:</th>
<th>Existing Control Measures</th>
</tr>
</thead>
</table>
| E - Very High            | The Hive users should follow the QMUL Fire Safety Guidance, including emergency evacuation procedures and will be directed by QMUL Security in the event of an emergency. (Please see the 'Emergency Evacuation Guidance COVID-19' located here: [http://www.hsd.qmul.ac.uk/covid-19-secure-guidance/](http://www.hsd.qmul.ac.uk/covid-19-secure-guidance/))

The Hive users have access to an Emergency phone, please wipe the phone with the anti-bacterial wipes provided after use.

Staff involved in the provision of assistance to others (e.g. First Aiders) should follow HSD COVID-19 First Aid Guidance ([http://www.hsd.qmul.ac.uk/covid-19-secure-guidance/](http://www.hsd.qmul.ac.uk/covid-19-secure-guidance/)) and ensure correct sanitisation measures immediately after attending an incident.

## 4. Visitors and contractors

**Description of Activity:** Essential visitors and contractors allowed on QMUL campuses and in QMUL buildings.
**Hazard 1. COVID-19 virus exposure and transmission from visitors and contractors**

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

### 5. Inadequate or insufficient environmental cleaning

| Description of Activity: | EAF and departments own cleaning regime. |
### Hazard 1. COVID-19 virus exposure and transmission from inadequate or insufficient environmental cleaning

<table>
<thead>
<tr>
<th>Uncontrolled Risk:</th>
<th>E - Very High</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hazard 1. COVID-19 virus exposure and transmission from inadequate or insufficient environmental cleaning</td>
<td></td>
</tr>
</tbody>
</table>

**Existing Control Measures**

- Vigorous cleaning regime implemented incorporating HSD virus survival information and cleaning / decontamination guidance. Including frequent cleaning of objects and surfaces that are touched regularly, such as door handles and handrails.

- Determine the required cleaning process for equipment that cannot be washed or wiped down, assess if it practical that such machines / equipment can have protection around. Hand sanitiser and alcohol-based wipes are available for students to use on shared equipment in between scheduled cleaning by the Cleaning Team.

- Control measures implemented for cleaning staff (including appropriate PPE) as determined by local risk assessment and Biological Safety Adviser / HSD guidance.

- Handwashing facilities and / or hand sanitiser have been provided in The Hive.

- The importance of hygiene and handwashing procedure has been communicated across Library Services (Student and Academic Services) via a variety of media, including the Student and Academic Services intranet, and emails with links to the HSD guidance documentation which has been circulated by the SAS Safety Coordinators.

- Cleaning after a known or suspected case of COVID-19 must follow the specific guidance issued by PHE.

- Students are responsible for cleaning keyboards, desks and communal equipment such as printers before and after use, and are provided with induction and guidance notes that covers this during the booking process.

- Food and drink policy is provided as part of guidance to students - see 10 Steps document attached.

## 7. Infrastructure and maintenance health & safety issues arising from buildings that have been fully or partially closed

| Description of Activity: | Maintaining infrastructure and facilities to ensure COVID-19 SECURE and other H&S risks are managed and reduced to a negligible level. |
Hazard 1. Infrastructure and maintenance health & safety issues arising from buildings that have been fully or partially closed:

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

Uncontrolled Risk: E - Very High

Existing Control Measures:
Regular maintenance regime has been undertaken during the lockdown to eliminate the risks (legionella etc) associated with buildings which have been closed. Routine maintenance is ongoing following reopening of QMUL study spaces in July 2020.

The Hive has undergone a vigorous cleaning regime that has been implemented by facilities incorporating HSD virus survival information and decontamination guidance.

A review of Estates site management plan (particularly cleaning, maintenance and security functions) has been carried out to incorporate COVID-19 secure government guidelines.

There are no areas with restricted access for maintenance staff.

With Existing Controls: C - Medium / Moderate

8. Psychological wellbeing of students returning to campus

Description of Activity:
Ensuring students good mental health is maintained and concerns are addressed in a proactive and understanding manner.
Hazard 1. Psychological wellbeing of students returning to campus

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

Uncontrolled Risk: E - Very High

Existing Control Measures

- Provision of clear, consistent and regular communications around Covid-19 and the ways of studying will be provided by the Schools.

Ongoing engagement with students to monitor and understand any unforeseen impact of changes to working environments will be managed and monitored by the Schools.

Student and Academic Services provides support for student mental health through the following ways:

- Students with a mental health condition receive support and mentoring from the mental health advisors in the Disability and Dyslexia Service

- Advice and Counselling provides a wide range of support for students with anxiety and related issues through both group therapy and individual therapeutic counselling

- The university has student support embedded in each School, normally with the provision of a student support officer

- A large number of QMUL staff have mental health first aid training

- A key component of supporting the psychological impact of Covid-19 is through clearly communicating our Covid-safe practices and this will be done on an iterative basis through the student bulletin in collaboration with Marketing and Communications

With Existing Controls:

C - Medium / Moderate

9. Use of PC desks

Description of Activity:

The PC desks have Student Services PCs mounted to the desks.

The AIO (All In One) PCs are touch screen as well as the provision of a keyboard and mouse.
### Hazard 1. COVID-19 virus exposure and transmission when using PC desks

<table>

</thead>
<tbody>
<tr>
<td>E - Very High</td>
<td>Non-PC desks have been identified that support 2m social distancing and any superfluous furniture eg chairs have been removed. Signage clearly indicates the number of users at each table, which is also maintained through the Booking System. Provision of alcohol-based wipes have been provided nearby so users can wipe before and after use of the desks. Provision of hand sanitiser for users to top-up will be accessible. Users will be provided with hand-washing guidance in line with Government hand-washing advice. Hand washing facilities are located in the communal toilets. A booking system with a reduced capacity to maintain 2m social distancing. Desks will be allocated with corresponding numbers. Face coverings - the wording below has been added to the 10 steps on the booking form. Also please see the 10 steps attached. &quot;You must stay 2 metres away from other people, and if someone forgets please remind them without chastising them. A face covering must be worn at all times in libraries and study spaces. If you are exempt from wearing a face covering, you must wear a lanyard to indicate this.&quot;</td>
</tr>
</tbody>
</table>

### With Existing Controls: C - Medium / Moderate

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

Uncontrolled Risk: E - Very High

Existing Control Measures
Non-PC desks have been identified that support 2m social distancing and any superfluous furniture eg chairs have been removed.

Signage clearly indicates the number of users at each table, which is also maintained through the Booking System.

Provision of alcohol-based wipes have been provided nearby so users can wipe before and after use of the desks.

Provision of hand sanitiser for users to top-up will be accessible.

Users will be provided with hand-washing guidance in line with Government hand-washing advice.

Hand washing facilities are located in the communal toilets.

A booking system with a reduced capacity to maintain 2m social distancing.

Desks will be allocated with corresponding numbers.

Face coverings - the wording below has been added to the 10 steps on the booking form. Also please see the 10 steps attached.

"You must stay 2 metres away from other people, and if someone forgets please remind them without chastising them. A face covering must be worn at all times in libraries and study spaces. If you are exempt from wearing a face covering, you must wear a lanyard to indicate this."
Provision of hand sanitiser for users to top-up will be accessible. Users will be provided with hand-washing guidance in line with Government hand-washing advice. Hand washing facilities are located in the communal toilets. Alcohol-based wipes will be located next to the vending machines for students to use before and after use. Food and drink policy provided with the 10 Steps document attached.

**11. Use of Vending Machines**

**Description of Activity:**
- The vending machines have a touchscreen keypad to enter the relevant shelf code.
- The vending machines will be taken out of service until the supplier can come on site to deep clean and re-stock them with new items.

**Hazard 1. COVID-19 virus exposure and transmission when using the Vending Machines**

<table>
<thead>
<tr>
<th>Uncontrolled Risk:</th>
<th>E - Very High</th>
</tr>
</thead>
</table>

**Existing Control Measures**
- Provision of hand sanitiser for users to top-up will be accessible.
- Users will be provided with hand-washing guidance in line with Government hand-washing advice. Hand washing facilities are located in the communal toilets.
- Alcohol-based wipes will be located next to the vending machines for students to use before and after use.
- Food and drink policy provided with the 10 Steps document attached.

**12. Use of MFD (Multi-Function Device)**

**Description of Activity:**
- The MFD has a touch-screen to select its use eg printing/copying.
- Paper can be refilled by both staff and service users. Printing paper is supplied adjacent to the MFD.
**Hazard 1. COVID-19 virus exposure and transmission when using the MFD**

The virus is spread in minute water droplets that are expelled from the body through sneezing, coughing, talking and breathing. The virus can be transferred to the hands and from there to surfaces. It can survive on surfaces for a period after transfer (depending on such things as the surface type, its moisture content and temperature).

If it is transmitted from one person to another, while many survive infection, some may die from the disease and it is regarded as a high hazard.

Uncontrolled Risk: **E - Very High**

**Existing Control Measures**

- Provision of alcohol-based wipes have been provided nearby so users can wipe before and after using printers.
- A reminder notice to do so is placed on the MFD.
- Provision of hand sanitiser for users to top-up will be accessible.
- Users will be provided with hand-washing guidance in line with Government hand-washing advice.
- Hand washing facilities are located in the communal toilets.
- Users to refill MFDs to avoid having staff having to travel on-site.
- Hand washing guidelines apply.
- Staff and students can all refill the paper, for practical reasons.
- Everyone touching the printers is asked to use the wipes provided on any sections they touch, and to use hand gel before and after use. Wipes are provided nearby, and a reminder notice.

With Existing Controls: **C - Medium / Moderate**

**13. Group Study Rooms**

**Description of Activity:**

- Bookable group study space for students
- Whilst the 2M social distancing rule applies the group study rooms will be closed to students.
- These have been repurposed as "Individual Non-Silent Study Rooms".
Hand sanitiser and alcohol-based wipes to be available for room users in rooms. Room users to wipe any areas they have touched at end of usage period. Maximum occupancy details to be provided at time of booking rooms to ensure social distancing regulations are adhered to. Signs to be posted on doors to rooms with maximum occupancy numbers. In Use/Do not Use signs to be placed on desks appropriate to the social distancing requirements.

Hazard 1. Covid-19 virus exposure and transmission from contact with other persons and contaminated surfaces
