

Queen Mary. Made Different.

Postgraduate Prospectus 2027

“

Queen Mary is a place where real-world applications and academic excellence come together, where you know you can make it.”

Abdul Mannan Siddiqui,
MSc Banking and Finance

Our London campuses

Learn more
about our
campuses

Mile End campus

Home to our Faculties of Humanities and Social Sciences, and Science and Engineering. It offers a vibrant student village with postgraduate accommodation close by, and facilities that provide an exceptional learning experience, including lecture theatres, a library, cafés, cinema, arts lab, post-production suite, a gym, and our canalside.

Whitechapel campus

Co-located with the The Royal London Hospital and Royal London Dental Hospital, it's home to world-class biomedical research laboratories, our beautiful medical library, a café, and teaching facilities. This campus also contains halls of residence for our medical and dental students.

Charterhouse Square campus

Home to several of our medical research headquarters, including Barts Cancer Institute, the William Harvey Research Institute and the Wolfson Institute of Population Health. This campus also contains halls of residence for our medical students.

West Smithfield campus

For our medical and dental postgraduate and research students, the campus is co-located with St Bartholomew's Hospital, the oldest hospital in England. Here you will also find our cardiovascular, cancer, epidemiology, and public health research facilities, and our Clinical and Communications Skills Centre – one of the most advanced of its kind.

Lincoln's Inn Fields campus

Home to the Centre for Commercial Law Studies, our postgraduate teaching and research centre for law in the heart of Legal London.

Preparing for your career

Get the most from a research-led education, with real-world experience and access to London's global industry connections.

What's on offer

- A research-informed education, taught by world-class academics and researchers, developing essential transferable skills such as critical thinking, problem-solving, and communication.
- Opportunities to apply your learning through real-world projects, placements, internships, and work experience.
- Access to London's global business hub, offering connections with leading employers, organisations, and industries.
- Comprehensive careers support including CV and application advice, interview preparation, skills workshops, employer events, networking opportunities, and one-to-one guidance.

Three years

of ongoing career support after your course ends

Learn more about careers support

“

One of the initiatives I took advantage of was the QMentoring programme, which connects industry professionals with students. It helps provide more alignment with the skillset you need to work in a specific industry and was an invaluable experience.”

Mughees Asif, MEng Aerospace Engineering; Software Engineer at Amazon Intelligence (London, UK)

Your global network

Join a community of over 240,000 alumni around the world and unlock a global network of insight, opportunity, and career support.

Connect with global alumni

You'll join a global alumni network that connects you with graduates working across different industries and countries.

Whether you're building on existing experience, changing direction, or accelerating your career, our alumni community offers insight and support tailored to your next step.

- Access thousands of Queen Mary alumni around the world through the Queen Mary Network online platform.
- Receive one-to-one advice on making the most of your postgraduate experience and next career steps.
- Explore opportunities for work experience, placements, and graduate-level roles.
- Connect with professionals whose careers align with your aspirations and areas of interest.
- Take part in mentoring schemes designed to help you build confidence, expand your network, and stand out in competitive job markets.

“

Connecting with other alumni means I'm in a cohort with people who've attended a world-class institution, and that shows what you can work towards by being part of a Russell Group university.”

Estelle Denis, LLM Banking and Finance; Associate at BlackRock (New York City, USA)

“

When I was in the UK, I engaged with HM Government ministers and lawmakers, and was part of a Cumberland Lodge leadership programme. Queen Mary gave me the opportunities to connect and grow exponentially.”

Krishan Insan, LLM Comparative and International Dispute Resolution; Senior Manager at Directorate General of Hydrocarbons (Noida, India)

“

Studying at Queen Mary broadened my horizons through exposure to diverse knowledge and enriching experiences, while also giving me the opportunity to showcase my unique strengths.”

Shaw Zhong, MSc Investment and Finance; Brand Marketing Associate Manager at Sotheby's (Shanghai, China)

Wellbeing support

With access to a range of tailored resources, you can feel confident in achieving your goals, whatever your circumstances.

Legal and advocacy support

- Free, specialist, confidential advice and counselling support covering financial, practical, immigration, and wellbeing matters.
- Free, confidential legal support via the Queen Mary Legal Advice Centre.
- Dedicated support, from application through to graduation, if you're an asylum seeker or refugee, a carer, have been in local authority care, or are estranged.

Study support

- Dedicated events, mixers and wellbeing workshops throughout the year, with Postgraduate reps on hand to support.
- Disability and Dyslexia support from application through to graduation.
- English language and academic skills modules for international students.
- Tailored classes providing practical tools and proven techniques to enhance academic performance and writing skills.

Sport and fitness

- Inclusive sport and fitness opportunities for all abilities and experience levels, from social activities to competitive club sports.
- Access to the state-of-the-art Qmotion Fitness Centre to support your physical health and wellbeing.

Student health

- Our Student Health Service on our Mile End campus provides a complete range of medical services.
- Access to Occupational Health support.

Safety

- Dedicated Security Service operating 24/7, along with various security measures and resources to ensure a safe campus environment.

AI, Computer and Data Science

7th

in the UK for Data Science and AI, and 8th in the UK for Computing and Information Systems

(QS World University Rankings by Subject 2026)

Blend theory and hands-on application in machine learning, bioinformatics, and data analytics, shaping these fields with your unique decoding and data expertise.

What I loved most about my course was the pace and intensity. The course had a great mix of technical depth and collaboration, and working with classmates from such diverse backgrounds made the experience even richer."

Divya Nadar, MSc Artificial Intelligence

Transform your passion – whether in software development, machine learning, or data analysis – into real-world impact through our diverse range of specialist and broad postgraduate degrees. You'll unlock opportunities to collaborate and innovate at the forefront of data science and AI, thanks to Queen Mary's membership in The Alan Turing Institute's Turing University Network.

Our investment in state-of-the-art teaching spaces ensures access to the latest technology, while carefully designed electives will enhance your experience. You'll graduate with the technical skills and leadership capabilities to drive change in high-demand areas like AI, cybersecurity, and data-driven healthcare.

Highlights

- 99% of our research is classed as world-leading or internationally excellent (Research Excellence Framework 2021).
- Our Informatics Teaching Lab has recently undergone a £20m refurbishment, transforming it into a state-of-the-art learning hub.
- On average, our graduates earn £39,924 just 15 months after graduation (Graduate Outcomes Survey 2023/24).

Biological and Biomedical Sciences

Top 20

in the UK for
Biological Sciences

(QS World University
Rankings by Subject 2026)

Investigate the living world through research-led study in areas such as genetics and ecology, developing sought-after technical and analytical skills.

Queen Mary provided me with the tools and freedom to shape my aspirations. Its close-knit community, strong emphasis on networking, and focus on transferable skills helped me grow as a scientist."

Himmat Bakshi, MSc Biodiversity and Conservation

You'll learn from internationally recognised research leaders, and benefit from world-class teaching and cutting-edge facilities. All of this will equip you with the knowledge and skills to tackle some of the world's most pressing health challenges and drive innovations that shape the future of medicine, biodiversity, and sustainability.

With strong ties to industry partners and top companies, you will gain valuable opportunities for collaboration and career growth. Plus, international fieldwork opportunities will transform your academic experience into a real-world adventure in ecological research.

Highlights

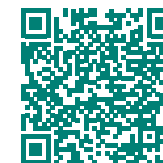

- Industry links to organisations such as AstraZeneca, the Environment Agency, GSK, the Institute of Zoology, the Natural History Museum, Proctor & Gamble, and Royal Botanic Gardens Kew.
- Opportunities for interdisciplinary research in biology, psychology, and biochemistry.
- Fieldwork in Madagascar for ecological programmes.

Dentistry

12th

in the world for Dentistry

(QS World University
Rankings by Subject 2026)

Strengthen your professional impact at one of the world's leading dental schools, where you'll bring together applied sciences, clinical and technical skills in an exceptional learning environment.

The programme offered strong theoretical and practical training, linking materials science to clinical dentistry. The inclusive environment, advanced labs, and research resources enriched my experience."

Nasser Alangary, MSc Dental Materials

You will be guided by world-leading experts across a diverse range of specialisms, including oral medicine, orthodontics, periodontology, and dental public health, ensuring that your education is not only comprehensive but also aligned with your unique career aspirations.

Studying in one of the UK's most dynamic and diverse dental communities, you will gain invaluable hands-on experience in your chosen area. With access to modern clinical practice facilities in the state-of-the-art Institute of Dentistry building, you'll receive practical training at a renowned Institute, equipping you to excel in any professional setting.

Highlights

- Clinical and non-clinical programmes with opportunities for distance learning.
- Some of the most advanced and modern equipment in the world, including the Simodontic Haptics Dental Trainers.
- New study and research facilities in the Blizard Building and The Royal London Dental Hospital.

Where could your degree take you?

Our graduates have gone on to work as:

- dentists
- dental surgeons
- endodontists
- orthodontists
- paediatric dentists
- specialty registrars

Economics and Finance

Top 100

in the world for Economics and Econometrics

(QS World University Rankings by Subject 2026)

Tailor your path to success with electives you feel passionately about, gaining the analytical and quantitative skills needed to tackle complex economic challenges.

Queen Mary stood out as one of the UK's top institutions. What sold me were the cutting-edge facilities like the trading lab equipped with the Bloomberg Terminal, and exclusive networking events with top UK employers."

Jason Know, MSc Wealth Management

By blending academic theory with real-world examples, you'll cultivate the analytical skills and strategic thinking essential for tackling complex financial challenges. With a strong focus on employability, you'll learn from leading academics at the forefront of cutting-edge research and experienced industry professionals – bridging the gap between advanced theory and real-world application.

Located in the heart of a global financial hub, just moments from the City and Canary Wharf, you'll have direct access to industry leaders and unmatched networking opportunities. As a graduate, you'll be fully equipped with the skills, knowledge and experiences necessary to thrive in careers in banking, consulting, government, and beyond.

Highlights

- Trading Lab with 37 Bloomberg Terminals and access to Wharton Research Data Services and The Economist.
- Develop career-ready skills through AmplifyME simulations and our student investment fund.
- Year in Industry available for selected MSc programmes, offering full-time, paid professional experience.

Where could your degree take you?

Engineering

3rd

**in the UK for Engineering
and Technology**

(Postgraduate Taught
Experience Survey 2025)

Further your expertise in fields such as sustainable energy and through outstanding industry collaborations, ready to apply your knowledge across a range of exciting sectors.

We have the opportunity to hear from industry experts who have experiences and knowledge far beyond what we can imagine, presenting the same ideas we have been taught in class. It makes you see the importance of what you're learning."

Rohan Aparajit, MSc Engineering Management

Study with an award-winning academic team driving revolutionary advancements in medical robotics, pre-clinical drug testing, sustainable materials, and renewable energy. With £30m already invested in cutting-edge engineering facilities – and further investment planned – you'll have access to world-class resources that empower your learning and set you up for future success.

You'll also have regular opportunities to engage in site visits, guest lectures, careers fairs, and workshops, bridging the gap between theory and practice while expanding your professional network.

Highlights

- Programmes informed by employer links and input from our Industrial Advisory Board, with members from Airbus, AECOM, Johnson & Johnson, Ford, Rolls-Royce, and more.
- New and refurbished laboratories include The NanoVision Centre for Advanced Microscopy, The Whitehead Aeronautical Laboratory, and The Makerspace Workshop.

Languages and Linguistics

4th

in the UK for Linguistics

(QS World University
Rankings by Subject 2026)

Master structure, meaning and use of language while gaining a deeper understanding of its mechanisms, ready to navigate communication in professional and global contexts.

My degree led to significant opportunities. I secured an internship through qLegal, became a student ambassador, and worked as a researcher and a research assistant thanks to the connections I made.”

Holly Warner, MA Linguistics

Enhance your understanding of how language shapes our world and acquire skills that are highly sought after in today’s global job market. In an era of increasing global connectivity, expertise in language and communication is more essential than ever, making our programmes a powerful tool for both personal growth and exceptional career opportunities.

You will collaborate with world-leading researchers at the forefront of their field, gaining insights into emerging areas such as AI, platform economies and digital activism. This cutting-edge exposure will equip you with the knowledge and skills to thrive in dynamic and rapidly evolving industries.

Highlights

- State-of-the-art linguistics facilities include the Phonetics Lab, the Language Acquisition Lab, and Morphemes and Meaning Lab.
- Guest speaker seminars from international academics, researchers and experts.
- Research placement options on our masters programmes.

Law

Top 40

in the world for Law

(QS World University
Rankings by Subject 2026)

With access to world-class experts and London's legal sector, you'll develop advanced knowledge and research skills – and connect with a global network of professionals.

Working as a student legal advisor at the qLegal pro bono clinic helped my career, leading to my selection for an open day at a US law firm and a competitive mentoring programme at a Magic Circle firm.”

Emilia Tambwe Tshomba, LLM International Business Law

Explore over 20 specialisations in both commercial and non-commercial areas of law. With more than 140 modules to choose from, you can tailor your LLM experience to suit your unique career goals.

You'll benefit from complimentary access to an extensive range of online legal databases and collections, as well as dedicated resources including the Law Library and the European Documentation Centre. In addition, you'll have the opportunity to gain hands-on experience through our in-house pro bono clinic, where you'll provide real legal advice and develop practical skills.

Highlights

- Solicitors Qualifying Examination preparation now available with 16 LLM programmes.
- Lincoln's Inn Fields campus is located in the heart of legal London, a short walk from the Royal Courts of Justice.
- Access our Postgraduate Law Mentoring Scheme, with mentors from a variety of legal sectors.

Where could your degree take you?

Literatures

Top 40

in the world for English
Language and Literature

(QS World University
Rankings by Subject 2026)

From Shakespeare to contemporary texts, explore literature that sharpens critical thinking and analytical skills through discussion, research, and close reading.

You work with people studying many different topics, but without hierarchies or boundaries. Lecturers took everyone's projects and chosen routes seriously, supporting us at every stage."

Livonia Okello, MA English Literature

You'll be guided by world-renowned scholars at the forefront of literary studies, enabling you to deepen your engagement with literature through both creative exploration and critical analysis.

The skills you develop will open doors to a wide range of careers – including publishing, journalism, teaching, marketing, the arts, law, and beyond – making a degree in English or Creative Writing remarkably versatile as well as intellectually enriching.

Highlights

- Create your own bespoke degree to gain an understanding of the movements, debates and literary practices that shaped a particular period or theme.
- We're the home of Wasafiri, the UK's leading magazine of international contemporary writing.
- Opportunities to interact with visiting experts including publishers, curators, poets, novelists, activists, and filmmakers.

Mathematics

Top 10

in the UK for
Mathematical Sciences

(QS World University
Rankings by Subject 2026)

Advance your expertise
in mathematical theory
and application to solve
complex problems
and make confident,
data-driven decisions.

I studied an applied mathematics degree which has given me a great platform to understand the world outside the classroom, with many concepts and theories having real-world applications.”

Vlad Macarie, MSc Financial Mathematics

You will gain a solid foundation in mathematical theory while developing skills that employers are looking for. Our programmes are designed to go beyond the traditional, offering you the chance to explore the real-world applications of maths in areas like climate risk, healthcare, and financial engineering.

You'll be part of a department that values innovation and relevance, equipping you with the tools to thrive in a fast-moving, data-driven world. It's a path with real impact – Mathematics postgraduates are the highest earners at Queen Mary.

Highlights

- All students have access to sector-leading facilities such as Bloomberg Terminals.
- Learn from world-leading academics in one of the UK's largest Mathematics departments.
- Choose from a wide range of real-world programmes that focus on strong foundations, practical skills and career-focused learning.

Medicine

8th

in the world for research
citations in Medicine
(citations per paper)

(QS World University
Rankings by Subject 2026)

Build your expertise in
clinical medicine through
advanced study and
hands-on learning in a
world-leading research
environment, preparing you
to tackle complex modern
healthcare challenges.

Accredited by

“

Thanks to my degree, I learned so much about caring for children, from newborns to young adults, and gained valuable skills and knowledge that have helped me develop my role as a Senior Assistant in the emergency department.”

Holly Wakefield, MSc Paediatric Emergency Medicine

Choose from a wide range of programmes designed to meet the evolving demands of global healthcare and accelerate your career across diverse medical fields. Whether you study on campus or online, you'll benefit from expert-led teaching across the full spectrum of medical and related disciplines. Supported by our specialist Institutes, you'll have access to collaborative research opportunities, cutting-edge facilities and a welcoming academic community.

Our programmes equip you with the knowledge, skills and professional connections to transform lives, whether in forensic medical science, genomic or regenerative medicine, or focused areas such as aesthetic medicine, endocrinology, emergency and trauma care, and critical care.

Highlights

- Access to specialist medical libraries at Whitechapel and West Smithfield, open-plan research laboratories, and multi-user labs.
- Fast-track your career via our Clinical Doctorates in Medicine and Surgery, which deliver specialised pathways, flexible learning and high-quality hands-on placements with our partner NHS Trusts.

Physics and Astronomy

Top 20

in the UK for Physics and Astronomy

(QS World University Rankings by Subject 2026)

Unlock the mysteries of the universe while gaining industry-ready insights and a professional edge through partnerships and impactful research.

Studying at Queen Mary really taught me how to go about learning. I enjoy taking new concepts, breaking them down, researching, and reading up where needed to understand something new."

Bradley Cooper-Barnard, MSc Astrophysics

Join a department with a rich legacy of scientific breakthroughs, from the Nobel Prize-winning work on the Higgs boson to the discovery of the exoplanet Proxima b. Here, you'll work alongside world-leading scientists in cutting-edge facilities, pushing the boundaries of knowledge in fields like astronomy, theoretical physics, artificial intelligence, and machine learning – through hands-on, high-impact research.

Through close industry connections, cross-disciplinary collaboration, and involvement in prestigious global projects, you'll gain the expertise, experience and confidence to lead innovation in both academic and applied science – and help shape the future of physics.

Highlights

- Highest research quality in London for Physics and Astronomy, with 96% of research rated internationally excellent or world-leading (REF 2021).
- £105m invested in our observatory and teaching laboratories equipped with X-ray sources, spectral emission tubes, and radiation sources and detectors.
- South East Physics Network member, providing paid placements, networking and mentoring opportunities.

Politics and International Relations

Top 20

in the UK for Politics and International Studies

(QS World University Rankings by Subject 2026)

Analyse global statecraft, from elections to human rights, in a dynamic research environment that builds the advocacy and policy skills needed to drive progress.

My programme enabled me to draw connections between business issues in regard to supply chain management, policymaking, and multilateral governance on global traded commodities.”

Olivia C, MSc International Business and Politics

Gain a competitive edge in a dynamic research environment that tackles global challenges. You'll explore international relations from a critical perspective, examining key topics like “American power”, the Global South, and the intersection of development and security. This analytical approach will prepare you to address public policy at local, European, and global contexts.

Supported by academics with strong policy links, you'll apply theory to real-world challenges, including those in your own country. Practical workshops in core academic skills will equip you for success, while Queen Mary's central London location offers direct access to seminars and events at the heart of policymaking.

Highlights

- Access to one-to-one academic guidance, tailored workshops, and external guest speakers on topics such as careers in public affairs and working in Parliament.
- Close links to our Mile End Institute, bringing together a wide range of policymakers, politicians, and engagement and networking opportunities.
- Learn from internationally-recognised researchers.

Psychology and Mental Health

94%

of graduates are in work or further study 15 months after graduation

(Graduate Outcomes Survey 2023/24)

Explore the complexities of behaviour, from cognitive processes to social dynamics, to understand the intricacies of the human mind.

My favourite module, Mental Health in Context, introduces fascinating research and broadens my understanding of mental health. Queen Mary stood out as a Russell Group University with strong rankings, and its NHS links have been invaluable."

Tanya Dutt, MSc Psychology; Mental Health Sciences

Explore the science and treatment of mental health disorders through programmes that combine clinical practice with leading research into therapies and public health. Designed for recent graduates and professionals, our courses offer an in-depth look at behavioural psychology and the complex factors shaping human experience.

We offer a range of diverse and career-focused programmes – including specialist degrees in Forensic Psychology and Public Mental Health. Some programmes are also available online, providing the flexibility to study in a way that suits you.

Highlights

- Our MSc Psychology (Conversion) and MSc Forensic Psychology and Mental Health are accredited by the British Psychological Society, allowing a smoother pathway towards many professional careers in psychology.
- Top 100 in the world for Life Sciences and Medicine (QS World University Rankings by Subject 2026).

about Emelie's story

Help with your application

Please apply as early as possible to allow enough time for your application to be considered, particularly if you're applying for sponsorships or financial support.

International students

- Queen Mary representatives travel to over 50 countries each year to meet and support our international applicants.
- We have an international network of over 100 authorised representatives who can provide advice and guidance on your application to Queen Mary.

Postgraduate research programmes

- Find a good match with a supervisor or existing research group – most Schools advise that you contact a supervisor via email before applying.
- Explore research areas and supervisors on our Postgraduate Research webpage, and for entry requirements and application forms, visit the Applying for a PhD webpage.

Conversion programmes

- LLB Senior Status – qualifying law degree suitable for non-law graduates
- MSc Artificial Intelligence
- MSc Computer Science
- MSc Data Science and Artificial Intelligence
- MSc Biomedical Engineering
- MSc Psychology

Fast-track programmes

- Our Graduate Entry Medicine MBBS (four years) is designed to be a fast-track route for graduates who obtained good degrees in science or health-related subjects.

Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Charterhouse Square, Distance Learning	January start available Yes
Clinical Education (Degree Apprenticeship)			
Qualification PGCert	Study mode PT	Campus Whitechapel	January start available No
Clinical Endocrinology			
Qualification MSc, PGDip	Study mode FT, PT	Campus Charterhouse Square, Distance Learning	January start available No
Clinical Microbiology			
Qualification MSc, PGDip	Study mode PT	Campus Whitechapel	January start available No
Clinical Research			
Qualification MRes, PGCert, PGDip	Study mode PT	Campus Charterhouse Square	January start available Yes
Critical Care			
Qualification MSc, PGCert, PGDip	Study mode FT, PT, VM	Campus Charterhouse Square, Distance Learning	January start available Yes
Emergency and Resuscitation Medicine			
Qualification MSc, PgDip	Study mode PT	Campus Distance Learning	January start available No
Endocrinology and Diabetes			
Qualification MSc, PGDip	Study mode PT	Campus Distance Learning	January start available No

Forensic Medical Sciences			
Qualification MSc	Study mode FT	Campus Charterhouse Square	January start available No
Gastroenterology			
Qualification MSc, PGDip	Study mode FT, PT	Campus Whitechapel, Distance Learning	January start available Yes
Genomic Medicine			
Qualification MSc, PGDip, PGCert	Study mode FT, PT	Campus Charterhouse Square, Distance Learning	January start available Yes
Health Care Research Methods			
Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Charterhouse Square, Distance Learning	January start available Yes
Health Data in Practice			
Qualification MSc, PGDip	Study mode FT, PT	Campus Whitechapel	January start available No
Medical Education			
Qualification MA, PGCert	Study mode FT, PT	Campus Whitechapel, Distance Learning	January start available Yes
Molecular Cell Biology			
Qualification MSc	Study mode FT	Campus Mile End	January start available No
Neuromodulation and Pain Management			
Qualification PGCert	Study mode PT	Campus Distance Learning	January start available No
Neuroscience			
Qualification MSc, PGCert, PGDip	Study mode FT, PT	Campus Whitechapel	January start available No
Orthopaedic Trauma Science			
Qualification MSc	Study mode PT	Campus Distance Learning	January start available No
Paediatric Emergency Medicine			
Qualification MSc, PGCert, PGDip	Study mode PT	Campus Distance Learning	January start available No
Podiatric Sports Medicine			
Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Mile End	January start available No
Precision Musculoskeletal Sciences			
Qualification MSc, PGCert, PGDip	Study mode FT, PT	Campus Charterhouse Square	January start available No

Regenerative Medicine			
Qualification MSc, MRes, PGDip	Study mode FT, PT	Campus Whitechapel	January start available No
Sports and Exercise Medicine – Medic			
Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Mile End	January start available No
Sports and Exercise Medicine – Physio			
Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Mile End	January start available No
Sports and Exercise Medicine – Physio (MACP accredited)			
Qualification MSc, PGDip	Study mode FT, PT	Campus Mile End	January start available No
Trauma Sciences			
Qualification MSc	Study mode PT	Campus Distance Learning	January start available No
Trauma Sciences (Military and Humanitarian)			
Qualification MSc	Study mode PT	Campus Distance Learning	January start available No
Tuberculosis			
Qualification PGCert	Study mode PT	Campus Distance Learning	January start available No
Physics and Astronomy			
Astrophysics			
Qualification MSc	Study mode FT, PT	Campus Mile End	January start available Yes
Physics (EuroMasters)			
Qualification MSc	Study mode FT	Campus Mile End	January start available No
Politics and International Relations			
International Business and Politics			
Qualification MSc	Study mode FT, PT	Campus Mile End	January start available No
International Political Economy			
Qualification MSc	Study mode FT, PT	Campus Mile End	January start available No
International Political Sociology			
Qualification MSc	Study mode FT, PT	Campus Mile End	January start available No
International Public Policy			
Qualification MSc, PGDip	Study mode FT, PT, VM	Campus Mile End, Distance Learning	January start available No

International Relations			
Qualification MA, MRes, PGDip	Study mode FT, PT, VM	Campus Mile End, Distance Learning	January start available No
Political Theory			
Qualification MA	Study mode FT, PT	Campus Mile End	January start available No
Public Policy			
Qualification MRes, MSc	Study mode FT, PT	Campus Mile End	January start available No
War Studies			
Qualification MA	Study mode FT	Campus Mile End	January start available No
Psychology and Mental Health			
Forensic Mental Health: Research and Practice			
Qualification MSc, PGDip	Study mode FT, PT	Campus Whitechapel	January start available No
Forensic Psychology and Mental Health			
Qualification MSc	Study mode FT	Campus Whitechapel	January start available No
Mental Health: Cultural Psychology and Psychiatry			
Qualification MRes, MSc, PGDip	Study mode FT, PT	Campus Whitechapel	January start available No
Mental Health: Psychological Therapies			
Qualification MRes, MSc, PGDip	Study mode FT, PT	Campus Whitechapel, Distance Learning	January start available Yes (online only)
Psychology: Mental Health Sciences			
Qualification MSc	Study mode FT	Campus Mile End and Whitechapel	January start available No
Psychology (conversion programme)			
Qualification MSc	Study mode FT	Campus Mile End	January start available No
Public Mental Health			
Qualification MSc	Study mode FT, PT	Campus Whitechapel	January start available No

Terms and Conditions

Queen Mary has made reasonable efforts to ensure that the information provided in this prospectus is both helpful and accurate at the time of going to print. However, it is important to understand that there are circumstances in which we may subsequently change aspects of a programme.

Our programmes are delivered within a dynamic, academic community by staff who are actively engaged in research. In this context, we might make changes so that our students can learn from the latest academic research. We also value student feedback and provide regular opportunities for our students to comment on the content of their programme. We may therefore alter a programme in response to this dialogue with current students.

For this reason, it is important that you check our website for the most

up-to-date information (qmul.ac.uk/courses) or contact us using the details contained within this document.

Any place at Queen Mary is subject to Queen Mary's terms and conditions, which can be found at qmul.ac.uk/prospective/termsandconditions. These cover a range of topics that are important for you to know. Before accepting any offer from Queen Mary, please make sure you read our terms and conditions in full, and contact Queen Mary if you have any questions or concerns.

Queen Mary will receive personal data from you in various ways when you submit your application for one of our programmes, which may include special category or criminal convictions data.

Any personal data will be held by Queen Mary and may be used by Queen Mary to enable it to fulfil its responsibilities to you.

We are accountants, directors,
marketers, actuaries, software
engineers, web developers,
ecologists, researchers, doctors,
oncologists, journalists, teachers,
dentists, creative producers,
economists, investment
bankers, mechanical engineers,
project managers, solicitors,
surgeons, lawyers, cardiologists,
physicists, and psychologists.

Made Different.
