

Six steps to keep Queen Mary COVID-Secure

Practise social distancing and wear a face covering where advised.

Use our new one-way routes when moving around campus.

Wash your hands regularly for at least 20 seconds with hot water and soap, or use hand sanitiser.

When using communal spaces like study desks, wipe surfaces down before and after use.

Avoid sharing laptops, other electronics, food, drink or utensils with other people.

Where possible, keep doors and windows open to improve ventilation.

Face covering guidance

The following policy is
in effect from Monday
7 September

A face covering should be worn:

- in all common indoor circulation spaces such as corridors, stairwells, toilets and lifts;
- in other inside areas where 2 metres social distancing cannot be maintained, if it is reasonably practical to do so.

Unless advised to do so, there is no need to wear face coverings on campus when:

- sitting to study in designated study areas, sitting to listen to a seminar/lecture in a designated lecture theatre or teaching room;
- in our designated canteens, unless advised to do so.
