PROTECT NEWSLETTER

Perioperative Platform Trial

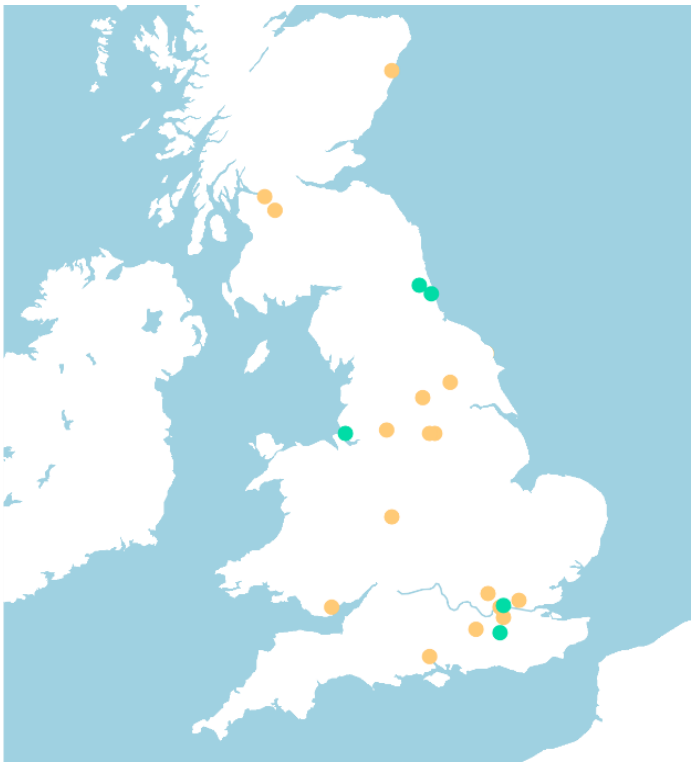

Issue 1, June 2026

Welcome!

Welcome to the first edition of the PROTECT platform newsletter!

Since opening in March 2026, the platform is continuing to build momentum, with three open comparisons (AEGIS, HFNO and DIVERSITY) and new sites coming onboard. Stay tuned for updates on recruitment, site activity, and upcoming developments across the PROTECT network.

Participating sites

Open (5) In Progress (16)

Recruitment Progress

PROTECT Platform	AEGIS
133	10
HFNO	**DIVERSITY**
79	35

Thank you to all our open sites for their amazing recruitment so far ⭐

Watch this SPACE (II) !

We've only just started, and our next study to join the PROTECT family is already lined up – SPACE II. Following on from the success of SPACE I, we'll be looking at stopping or continuing ACE-inhibitors and ARBs before major elective non-cardiac surgery. SPACE II opens in October 2026 and will recruit over 2,000 participants – get in touch to get involved!
