ONE WORLD WEEK 99 w
What a fantastic workshop!

Music brings us all together!

ONE WORLD WEEK 99 w
Mario Kart is back!

One World Week aimed to celebrate the rich culture and diversity of students across our campuses. It took place from Monday 10th February to Friday 14th February 2020 and involved a week's worth of events and activities led by the student union events team and cultural societies:

Monday: Herbs from Around the World Workshop and 'Global Potluck' International Food Night

Tuesday: Colourful Clay Crafternoon and Frat & Bat USA

Wednesday: Pick, Paint and Plant Workshop and Salsa Night

Thursday: DJ Live World Streaming

Friday: International Sports Day and African Drumming

Highlights of the project:

- We had 700 students attend and engage with our events over the week
- We increased cultural society engagement and worked with a total of 14 student societies to deliver events
- We showcased the diversity of our students on campus
- We improved the student union offering to minority groups
- We fostered and celebrated a new sense of community of campus
- We gave students the opportunity to get involved with different cultures, for example the food night had over 50 dishes from 15 different countries being represented
- We gave student societies the guidance and backing to plan and create their own events and provide them with skills for their future careers.
