

Have you recently been seen at home by a paramedic or ambulance crew?

Researchers at Queen Mary University of London are looking at how care works when paramedics visit people at home and get advice from doctors to decide what care is best.

Who can take part?

We would like to hear from people who:

- ✓ Have been seen at home by a paramedic or ambulance crew who may have spoken to a doctor about your care
- ✓ Are aged 65+ or you are caring for family member who is 65+
- ✓ Living in North East London

What does it involve?

- A single interview, no more than 60 minutes long
- Interviews can be in-person, over the phone, or online video call
- You can take part on your own or with a family member/caregiver
- You will be offered a £30 voucher for your time
